Please join us for a panel discussion about the process of building a mentorship committee. Our panel is comprised of junior and senior faculty with a variety of experiences as both mentees and mentors. Come and learn about the importance of a mentorship committee and the who, what, when, and how of building a team.

At the conclusion of the seminar, the participant will be able to:

1. Identify different types of mentors
2. Discuss steps needed to build a mentorship committee
3. Describe mentoring resources available at the University of Rochester

The URSMD Junior Faculty Biomedical Research Association (JFBRA) is an academic peer group designed to serve the unique needs of early-stage Ph.D. and M.D. faculty to promote our success in scientific discovery, funding, publications, mentoring, teaching and service to the University of Rochester and the greater Rochester community. For more information or to be added to the JFBRA distribution list, please contact the JFBRA Co-directors or email faculty_development@urmc.rochester.edu
