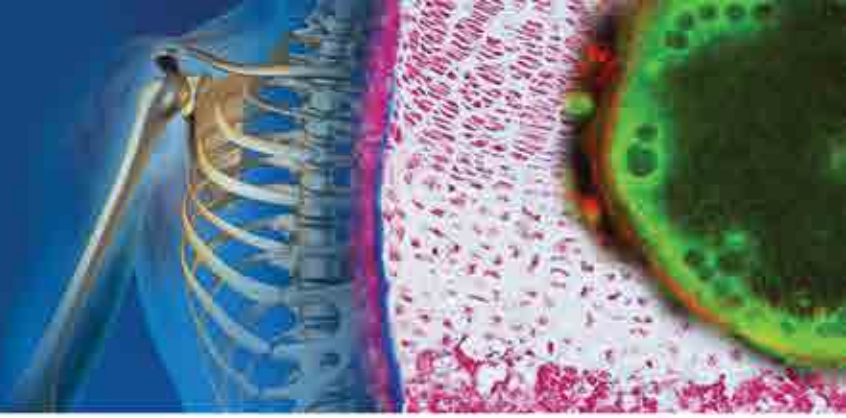
CENTER *for* MUSCULOSKELETAL RESEARCH



HOLD THE DATE

8th Annual Center for Musculoskeletal Research Symposium

Announcement and Call for Abstracts

October 24, 2018, 8:00 am – 5:00 pm
Adolph Auditorium and SRB Atrium

The Center for Musculoskeletal Research is excited to announce its **8th Annual CMSR Symposium** to be held Wednesday October 24th in the Adolph Auditorium and the Saunders Research Building (SRB) Atrium. We invite you to submit your abstracts for the podium and poster sessions. As usual the abstracts will be reviewed for consideration of the Randy Rosier Training Awards. This year, we are honored to welcome, as keynote guest and speaker, Jennifer Elisseeff, PhD. Dr. Elisseeff is the Morton Goldberg Professor of Biomedical Engineering at the Whiting School of Engineering and Johns Hopkins School of Medicine. Her research is in the fields of regenerative medicine and immunoengineering. Dr. Elisseeff is a prolific biomaterials scientist, inventor, and a serial entrepreneur. She directs the recently established Translational Tissue Engineering Center at Johns Hopkins. Dr. Elisseeff was elected to the prestigious National Academy of Engineering in 2018 "For development and commercial translation of injectable biomaterials for regenerative therapies."

Submit abstracts to Tiffany Totman via email: tiffany_totman@urmc.rochester.edu
Use the accompanying form to submit your abstract

Abstract Submission Deadline: Monday September 24th by 5:00 pm

Abstracts will be reviewed for selection of morning session presenters & Rosier Award finalists
Presentations will be judged to select this year's awardees
