EASTMAN INSTITUTE FOR ORAL HEALTH

Contemporary Implant, Restorative and Esthetic Dentistry

A Participation Program | Rochester, NY

January 16-17, January 30-31, March 27-28 and April 17-18, 2015

Hans Malmström, DDS Course Director

Georgios Romanos, DDS, PhD

George Tysowsky, DDS, MPH

Nasser Barghi, DDS

Gerard Kugel, DMD, MS, PhD

Marcos Vargas, DDS, MS

EASTMAN INSTITUTE FOR ORAL HEALTH

## Implants and Grafts

January 16-17

### Current Concepts in Implant Dentistry: Predictable Surgical Techniques for Soft and Hard Tissue Augmentation in the Esthetic Zone

Lecture and Lab Exercise

**Dr. Georgios Romanos** is currently Professor and Associate Dean for Clinical Affairs at SUNY Stony Brook, School of Dental Medicine and tenured Professor for Oral Surgery and Implantology in Frankfurt, Germany.

Dr. Romanos completed educational programs in Periodontics, Prosthodontics and Oral Surgery in Germany and the Advanced Education in General Dentistry as well as the Periodontology Residency Program at the University of Rochester Eastman Institute for Oral Health. He is Board Certified by the American Board of Periodontology; former Professor of Implant Dentistry at New York University; Adjunct Professor of Clinical Dentistry at the University of Rochester. His PhD is related to connective tissue research and his postdoctoral work is on immediate loading of oral implants. He has presented over 500 lectures, published extensively on the subject of laser and implant dentistry, authored more than 250 papers, book chapters, and four books. In addition, Dr. Romanos is an Editorial Board member in peer-reviewed journals and Chairman of the World Federation of Laser Dentistry (North American Division).

#### Course Content

- Correct selection of grafting materials for bone augmentation
- Grafting methods for soft tissue augmentation around implants
- Concepts of implant therapy to improve crestal soft and hard tissue stability
- Esthetic considerations for long term success in the esthetic zone

## New Techniques: Bridges, Crowns and more

January 30-31

### Fiber Reinforced Bridges, Bleaching: In-office, Home or OTC. Update on Adhesive Dentistry and Future of Porcelain Materials, Best Techniques for Cementation of Crowns, Venners and Fiber Posts

Lecture, Lab Exercise and Patient Care

**Dr. George Tysowsky** is Clinical Assistant Professor at SUNY Buffalo and Vice President of Technology for Ivoclar Vivadent, Inc., where he is responsible for research and development activities for North American operations.

#### Course Content

- What is new in tooth colored posts and crowns?
- Best techniques for crown and veneer cementation
- Fiber posts: materials and techniques

**Dr. Hans Malmström**, Division Chair of General Dentistry and Director of the AEGD Residency Program at the University of Rochester Eastman Institute for Oral Health, Rochester, NY. He is Professor and Director of Continuing Dental Education at Eastman Institute for Oral Health and Coordinator of the Esthetic Dentistry Unit. He has written several scientific articles and conducted numerous clinical research studies.

#### Course Content

- Treatment planning
- New trends and developments in composite and adhesive technology
- Techniques for fabricating fiber-reinforced bridges (hands-on exercise and patient care)
- Update on bleaching- clinical demonstrations, and patient care
- Lecture, Patient Demonstration and Lab Exercise

## Esthetic Posterior and Anterior Composite

March 27-28

### Adhesive Dentistry 2015: Direct Anterior Resin Composite Restorations in Daily Practice & Bioactive Materials & Cementation: Is Newer Always Better?

Lecture and Lab Exercise

**Dr. Gerard Kugel** is Associate Dean for Dental Research. Professor of Prosthodontics and Operative Dentistry at Tufts University School of Dental Medicine. Dr. Kugel has been conducting research at the Dental School

for 25 years which has contributed to his expertise in Clinical Research and Esthetic Dentistry. He is a reviewer and board member for many dental journals and is a Fellow in the American and International Colleges of Dentistry, the Academy of General Dentistry, and the Academy of Dental Materials. Dr. Kugel has published over 120 articles and over 200 abstracts in the field of restorative materials and techniques. He was given over 300 lectures both nationally and internationally.

**Dr. Marcos Vargas** is a Professor in the Department of Family Dentistry at the University of Iowa. He is a pre- and postdoctoral lecturer and clinical instructor and he also maintains a private practice in the

Department of Operative Dentistry. Dr. Vargas's primary interest is in the area of dental materials; glass ionomers, dentin bonding, composite resins and esthetic dentistry. Dr. Vargas received his dental degree from Cayetano Heredia Peruvian University in Lima Peru and he completed and Advanced Educatin in General Dentistry program from Eastman Dental Center. He received his operative dentistry from the University of Iowa.

#### Course Content

- Optical properties of natural dentition & resin composite
- Resin composite selection
- Shade selection and color mapping for anterior restorations
- Cavity preparation for optimal color blending
- Advantages & disadvantages of the different generations of bonding
- Avoiding Post operative sensitivity
- Learn what bioactive materials are and how they work

## Porcelain Veneers

April 17-18

### Everything You Need to Know About Porcelain Veneers, Crowns and Color

Lecture, Lab Exercise and Patient Demo from start to finish on porcelain veneers

**Dr. Nasser Barghi** is a Professor and Head of the Division of Esthetic Dentistry in the Department of Restorative Dentistry at the University of Texas Health Science Center at San Antonio

Dental School.

He is Past President of the American Equilibration Society, holds membership in many professional dental organizations and has authored and co-authored over 185 articles and abstracts.

He has completed extensive research on bonding and etched porcelain bonded restorations, and has lectured extensively in the United States and abroad. Dentistry.

#### Course Content

- Diagnosis, treatment planning, and preparation for porcelain veneers, crowns, onlays and inlays
- Predictably selecting tooth shade
- Using composite and cements to enhance porcelain veneer esthetics
- Color modification of porcelain veneers and crowns
- Live patient demonstration of porcelain veneers

## Educational Objectives for Esthetic Conference

### Upon completion of this course, the participants will be able to:

- Enhance knowledge and clinical skills in soft and hard tissue grafting techniques.
- Have an in-depth understanding of adhesive dentistry and techniques and materials for esthetic restorations.
- Improve skills in placing and fabricating esthetic restorations.

## Save the date for the

21st Annual Handelman Conference

## Update on Esthetic and Restorative Dentistry

May 1, 2015  
8:00a.m. - 5:00p.m.  
Double Tree Rochester

#### Featuring Dan Nathanson, DMD, MPH

*Professor and Chairman of the Department of Restorative Sciences and Biomaterials at Boston University.*

Dr. Nathanson He received his dental degree from the Hebrew University in Jerusalem, Israel and completed postdoctoral training in restorative dentistry and dental materials at Harvard School of Dental Medicine and Forsyth Dental Center in Boston. He also received a specialty certificate in prosthodontics and a Master's degree in public health from Boston University School of Graduate Dentistry.

In addition to his academic position he also maintains a part time practice limited to prosthodontics in Boston. Organizational affiliations include Fellowships in the Academy of Prosthodontics, American Academy of Esthetic Dentistry, and the Academy of Dental Materials; Memberships in the ADA, American College of Prosthodontists, Greater NY Academy of prosthodontics, International association for Dental Research (Past President, Boston Chapter), and other organizations. He is President-Elect of the International Federation of Esthetic Dentistry.

## Save the dates for these hands-on seminars

### Advanced Endodontics for the General Practitioner

#### The Philosophy of Vertical Compaction of Warm Gutta Percha and Use and Abuse of NiTi Rotary Systems

Session I: September 18-19, 2015

Session II: October 16-17, 2015

William Nesbitt,  
DMD

Manuel Hoyo,  
DMD, MSD

### Microendodontics 3-D imaging and magnification: A new era in Endodontics diagnosis and treatment.

By using a microscope and 3-D imaging, Participants will learn hands-on how magnification and illumination can facilitate non-surgical and surgical procedures achieving a predictable outcome.

Session III: October 23-24, 2015

Mohamed Fayad,  
DDS, MS, PhD

## Conference Overview

This Advanced Clinical Esthetic Dentistry Program is designed to provide participating dentists with a combined didactic, laboratory, and live clinical experience in selected cosmetic areas. Practitioners will have the opportunity to use a variety of different materials and techniques in a mentored environment.

The topics covered include anterior composite restorations, posterior composite restorations, indirect composite restorations, fiber reinforced bridges, temporization, home and in-office tooth bleaching, bonding, polishing, color, porcelain veneers, and crowns. After the lectures and laboratory experiences, the participants may, in some sessions, advance to the clinic where they will treat patients under the guidance of the program faculty.

## Sponsors

The program is co-sponsored by the General Dentistry Program and Esthetic Dentistry Unit at the Eastman Institute for Oral Health/ Eastman Dental and the Upstate New York Affiliate of The American Academy of Cosmetic Dentistry.

## Schedule of events

The Clinical Esthetic Dentistry Program will convene on four Fridays and Saturdays in consecutive months in 2015: Jan. 16-17 Jan. 30-31, March 27-28 and April 17-18. On Fridays, the program will be held from 1 pm to 9 pm and on Saturday, from 8 am to 6 pm.

**Please note: Friday, April 17 the hours will be 8:30 a.m. to 6 p.m.**

## About the Program

The program will provide participating dentists with a thorough, hands-on understanding of specific treatment-centered areas. It is geared to train the practitioner in the evaluation of comparative materials and techniques. After completing this program, the participants should be able to immediately practice the new skills on their own.

Brief, fast-paced, treatment-oriented lectures by leading clinicians introduce each subject area with a description of the clinical procedures and materials available. The

participants then have the opportunity to practice the specific techniques in a lab setting. Interested participants may then advance to the clinical setting, where patients are treated with over-the-shoulder assistance from the instructors. Since esthetic dental materials and techniques are in a constant state of evolution, training will not be limited to a single system or product.

## Location

Eastman Institute for Oral Health/Eastman Dental  
625 Elmwood Avenue  
Rochester, NY 14620-2989

## Tuition

\$2695 for all four sessions or \$995 per session

## Payment Options

Participants enrolled in all 4 sessions: \$2695

- Full payment by check or credit card
- Extended Credit Card Plan including a deposit of \$700 due at the time of registration and three monthly payments of \$665 which will be automatically charged to the account at the beginning of Jan., Feb., and March, 2015.

Per session: \$995 (Session 1-4)

- Full payment by check or credit card.
- \$300 deposit and the balance \$695 due before the session starts.
- Mail-in registration due by January 5, 2015

## Cancellation

Tuition will be refunded after a \$25 cancellation charge.

## Hotel Reservations

Double Tree of Rochester  
1111 Jefferson Road  
Rochester, NY 14623  
585-475-1510 (mention this program when booking)

## To Register

Mail in registration for the Esthetic Conference is due by January 5, 2015

## Corporate Grants

This program was funded in part by unrestricted educational grants from the following dental corporations:

## Course credits – 72

Eastman Institute for Oral Health has been designated as an approved sponsor by the New York State constituent of the Academy of General Dentistry and the ADA. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Eastman Institute for Oral Health designates the eight days for 72 hours of continuing dental education credits.
