Critical Care Nursing Symposium

September 21, 2009

**Arthur Kornberg
Medical Research Building
Class of '62 Auditorium**

Critical Care Symposium

Purpose:

The Critical Care Nursing Symposium will enable the learner to gather practical and evidence-based knowledge through the educational sessions on the topics below:

Authentic Leadership for Healthy Work Environments

Infection Prevention

Stroke Care

CMS "Never Events" Strategies

Palliative Care

Heart Failure Management

Ventilator Modes & Weaning

Humor In Nursing

Target Audience:

The Critical Care Nursing Symposium's intended audience includes nurses who care for critically ill patients in community and teaching hospitals. Nursing students who are interested in critical care after graduation are also targeted.

Contact Hours:

This activity will provide 6.25 contact hours

ACCREDITATION

University of Rochester Medical Center/Strong Memorial Hospital and Strong Health Affiliates is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

(July 11, 2000 - August 31, 2006)

Learning Objectives:

- Describe strategies to develop & sustain Healthy Work Environments using authentic leadership.
- Describe the forces within the current health care environment that are driving the need resuscitate the basics with evidence to create a safer patient environment.
- Define key care practices based on the evidence that can reduce bacterial load and/or prevent the development of health care acquired infections.
- Identify new treatment options for patients experiencing ischemic or hemorrhagic strokes.
- Discuss the utilization of palliative care practices in the critical care environment.
- Describe medical and surgical interventions for patients with symptomatic heart failure.
- Describe the use of traditional and advanced modes of ventilation in critically ill patients & strategies for weaning.
- Discuss the physiologic and psychological effects of humor and laughter.

Exhibits:

- Learner will review newest medical technology and pharmaceuticals that may assist the critical care nurses in providing better care and improved outcomes for their critically ill patients.
