Soft and Hard Tissue Management in Esthetic Dentistry: *Lecture, Live Patient Demonstration*

January 22-23

Dr. Georgios Romanos is currently Professor of Clinical Dentistry at the University of Rochester Eastman Institute for Oral Health. Chairman of the North American and Canadian Division of the World Federation Laser Division (WFLD).

Dr. Georgios Romanos was Clinical Professor of Periodontology and Implant Dentistry at the New York University, New York. He was also Director of the Department of Laser Sciences at the same university. He completed training programs in Periodontology, Prosthodontics and Oral Surgery in Germany. He presented over 200 lectures internationally on those topics. Dr. Romanos is the author of 170 papers and book chapters on laser and implant dentistry.

Course Content

- Increase understanding of surgical techniques for patients with hard and soft tissue deficiencies, including implants.
- Better understanding of the correct selection of grafting materials.
- To focus on the biology of the periodontal and periimplant tissues in order to achieve a better long term result.

Fiber Reinforced Bridges, Bleaching: In-office, Home or OTC. Update on Adhesive Dentistry and Future of Porcelain Materials, Best Techniques for Cementation of Crowns, Veneers and Fiber Posts *Lecture, Lab Exercise and Patient Care*

February 5-6

Dr. George Tysowsky is Clinical Assistant Professor at SUNY Buffalo

Dr. Tysowsky is Vice President of Technology for Ivoclar Vivadent, Inc. and is responsible for research and development activities for North American operations. He is Clinical Assistant Professor at the State University of New York at Buffalo, School of Dental Medicine.

Dr. Hans Malmström. Division Chief of General Dentistry, Director of the AEGD Residency Program, University of Rochester Eastman for Oral Health, Rochester, NY

Dr. Malmström is a Professor and Director of Continuing Dental Education in Eastman Institute for Oral Health and Coordinator of the Esthetic Dentistry Unit at the University of Rochester Eastman Institute for Oral Health Eastman Dental. He has written several scientific articles and conducted numerous clinical research studies.

Course Content

- What is new in tooth colored posts and crowns
- Best techniques for crown and veneer cementation
- Fiber posts: materials and techniques

Course Content

- Treatment planning
- New trends in composite and adhesive technology development
- Techniques for fabricating fiber-reinforced bridges (hands-on exercise and patient care)
- Update on bleaching— Clinical demonstrations, exercise and patient care

Everything You Need to Know About Porcelain Veneers, Crowns, and Color *Lecture and Patient Demonstration and Lab Exercise*

March 26-27

Dr. Nasser Barghi is Professor and Head of the Division of Esthetic Dentistry in the Department of Restorative Dentistry at the University of Texas Health Science Center at San Antonio Dental School, at San Antonio, Texas.

He is past president of the American Equilibration Society, holds membership in many professional dental organizations and has authored and co-authored over 185 articles and abstracts. Dr. Barghi has completed extensive research on bonding and etched porcelain bonded restorations, and has lectured extensively in the United States and abroad on the topic of esthetic dentistry.

Lecture, laboratory exercise and patient demonstration from start to finish of porcelain veneers.

Course Content

- Diagnosis, treatment planning, and preparation for porcelain veneers, crowns, onlays and inlays
- Predictably selecting tooth shade
- Using composite and cements to enhance porcelain veneer esthetics
- Color modification of porcelain veneers and crowns
- Live patient demonstration of porcelain veneers

CONTINUING DENTAL EDUCATION

COURSE CREDITS – 72

The eight days of the program provide 72 hours of continuing dental education credits. Eastman Dental has been designated as an approved sponsor by the New York State constituent of the Academy of General Dentistry and the ADA. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

SCHEDULE OF EVENTS

The Clinical Esthetic Dentistry Program will convene on four Fridays and Saturdays in consecutive months in 2010: January 22-23, February 5-6, March 26-27, and April 9-10, 2010. On Fridays, the program will be held from 1:00 – 9:00 p.m. and on Saturday, from 8:00 a.m. to 6:00 p.m. **Please note: Friday, March 26, the hours will be 8:00a.m. to 6:00p.m.**

Restorative Dentistry 2010; Direct Anterior Resin Composite Restorations in Daily Practice

Lecture and Lab Exercise

April 9-10

Dr. John O. Burgess is a graduate of Emory University School of Dentistry. He received his M.S. in Biomedical Sciences from the University of Texas Health Science Center.

Dr. Burgess is the assistant Dean for Clinical research and the director of Biomaterials at the University of Alabama at Birmingham. He is a member of the American Academy of Esthetic Dentistry, The Academy of Restorative Dentistry, American Dental Association, the American Association for Dental Research and the Academy of Operative Dentistry. Dr. Burgess is a fellow of the Academy of Dental Materials and the American College of Dentists. Dr. Burgess lectures extensively nationally and internationally and has presented more than 800 continuing education courses.

Dr. Vargas is a Professor in the Department of Family Dentistry at the University of Iowa.

He is a pre-and postdoctoral lecturer and clinical instructor and he also maintains a private practice in the Department of Operative Dentistry. Dr. Vargas' primary interest is in the area of dental materials: glass ionomers, dentin bonding, composite resins and esthetic dentistry. Dr. Vargas received his dental degree from Cayetano Heredia Peruvian University in Lima, Peru and he completed an Advanced Education in General Dentistry program from Eastman Dental Center. He received his MS in operative dentistry from The University of Iowa.

Course Content

- Using adhesives to the max
- Selecting and placing composite resin properly
- Limiting impression material errors
- Ceramics and Cements
- Use new low shrinkage bulk placed posterior restorations
- Put these procedures into your clinical practice tomorrow

Course Content

- Optical properties of natural dentition and resin composite
- Resin composite selection
- Shade selection and color mapping for anterior restorations
- Cavity preparation for optimal color blending
- Layering system to simplify the build up procedure
- Achieve proximal contact
- Contouring and polishing

OVERVIEW

This Advanced Clinical Esthetic Dentistry Program is designed to provide participating dentists with a combined didactic, laboratory, and live clinical experience in selected cosmetic areas. Practitioners will have the opportunity to use a variety of different materials and techniques in a mentored environment.

The topics covered include anterior composite restorations, posterior composite restorations, indirect composite restorations, fiber reinforced bridges, temporization, home and in-office tooth bleaching, bonding, polishing, color, porcelain veneers, and crowns. After the lectures and laboratory experiences, the participants may, in some sessions, advance to the clinic, where they will treat patients under the guidance of the program faculty.

SPONSORS

The program is co-sponsored by the General Dentistry Program and Esthetic Dentistry Unit at the Eastman Institute for Oral Health-Eastman Dental and by the Upstate New York Affiliate of The American Academy of Cosmetic Dentistry.

LOCATION AND TUITION

Location:

Eastman Institute for Oral Health
625 Elmwood Avenue
Rochester, New York 14620-2989

Hotel Reservations:

Double Tree of Rochester
1111 Jefferson Road
Rochester, NY, 14623
(585) 475-1510

(Mention this program when booking)

Rate: \$115 per night (mention this program when booking)

ABOUT THE PROGRAM

The program will provide participating dentists with a thorough, hands-on understanding of specific treatment-centered areas. It is geared to train the practitioner in the evaluation of comparative materials and techniques. After completing this program, the participants should be able to immediately practice their new skills on their own.

Brief, fast-paced, treatment-oriented lectures by leading clinicians introduce each subject area with a description of the clinical procedures and materials available. The participants then have the opportunity to practice the specific techniques in a laboratory setting. Interested participants may then advance to the clinical setting, where patients are treated with over-the-shoulder assistance from the instructors. Dentists can treat patients at the time of the course. Since esthetic dental materials and techniques are in a constant state of evolution, training will not be limited to a single system or product.

Eastman Institute for Oral Health is proud to announce the 2010 CONTEMPORARY RESTORATIVE AND ESTHETIC DENTISTRY PARTICIPATION PROGRAM

*Esthetic dentistry is the cornerstone of the modern fee-for-service practice.
This trend has been driven by the public's demand for appearance-related procedures*

This program was funded in part by unrestricted education grants from the following dental corporations:

Mail-in registration for the Esthetic Conference is due by January 11, 2010
