STUDENT FEE ADJUSTMENT POLICIES

Once billed, there is no adjustment in fees charged except in the following instances:

- The University Health Service will prorate health insurance fees based on the month of cessation of insurance coverage. Fourth-year students frequently seek a prorated refund for coverage not required during the summer following graduation.
- Students who pay tuition for more than four years may request a waiver of the Infection Control fee in subsequent years.
- Student Fellows participating in out-of-town year-out fellowships may request a partial waiver of the Student Services fee.
- On occasion, it may be necessary to charge a new fee as a result of a change in the curriculum or the list of required instruments. Likewise, occasionally adjustments to the standard fees may be necessary. In such cases, every effort will be made to inform the students.
