

GGD FACULTY RESEARCH PRESENTATIONS 2011

DATE	TIME	FACULTY	TOPIC
Please note: All GGD presentations will be held in KMRB conference room 2-9624 unless otherwise noted.			
Wednesday, Aug 31	11:00	Lei Xu	Understanding Regulations on Melanoma Metastasis
	11:20	Vyacheslav (Slava) Korshunov	Systemic approaches for understanding mechanisms of vascular diseases
	11:40	Eric Phizicky	tRNA quality control mechanisms
	12:00	Wei Hsu	A Wnt-Wnt situation in development and disease
Wednesday, Sept 7	11:00	Helene McMurray	Finding cancer cell-specific vulnerabilities
	11:20	Doug Portman	Genetic control of neural development and behavior
	11:40	Jacques Robert	Comparative immuno-cancer model in the frog <i>Xenopus</i>
	12:00	Craig Jordan	<i>title TBD</i>
Wednesday, Sept 14	11:00	Jianwen Que	<i>title TBD</i>
	11:20	Andy Samuelson	The War on Aging: Pushing through the <i>C. elegans</i> Genome to identify molecular networks combating the stochastic factors terrorizing organismal homeostasis
	11:40	Michael Welte	AS THE FAT FLIES: Intracellular trafficking in <i>Drosophila</i>
	12:00	Chris Pröschel?	<i>title TBD</i>
NOTE ROOM 2-9654	3:30	Hartmut (Hucky) Land	Cancer Biology and Cell Metabolism
NOTE ROOM 2-9654	4:10	Dirk Bohmann	<i>title TBD</i>
Wednesday, Sept 21	11:00	Thomas Mariani	<i>title TBD</i>
	11:20	Amy Kiernan	Stem cells in the ear and eye
	11:40	Catherine Ovitt	Lineage-restricted progenitor cells of the salivary gland
	12:00	Mark Noble	<i>title TBD</i>
Faulty presentations in other areas:			
			Not taking students:
