

Postdoctoral Traineeships in Environmental Health Biostatistics

The Department of Biostatistics and Computational Biology at the University of Rochester announces immediate openings for postdoctoral traineeships in Environmental Health Biostatistics. Now in its 17th year, the department's NIEHS training grant was renewed in July 2009 for an additional five years.

Postdoctoral appointees will receive training in advanced biostatistical theory and methods, work on epidemiologic and laboratory studies related to environmental health, and pursue methodologic research.

In accordance with NIEHS requirements, trainees must have completed a doctoral degree in statistics or a related subject and must be a US citizen or permanent resident. The position is available for 12 months initially with possibility of renewal for a second year by mutual agreement.

Applications and three reference letters should be sent to:

Dr. David Oakes
Department of Biostatistics and Computational Biology
University of Rochester Medical Center
601 Elmwood Avenue, Box 630
Rochester, NY 14642

or by email to oakes@bst.rochester.edu

*The University of Rochester is an Affirmative Action, Equal Opportunity institution.
Applications from women and under-represented minorities are particularly encouraged.*
