

POST-DOCTORAL RESEARCH POSITIONS
DEPARTMENT OF MEDICINE, AAB CARDIOVASCULAR RESEARCH INSTITUTE
UNIVERSITY OF ROCHESTER SCHOOL OF MEDICINE AND DENTISTRY

Post-doctoral positions are available to examine the molecular basis of vascular inflammation. Current interests in our laboratory include mechanisms of endothelial cell inflammation, with emphasis on microRNA, vesicle trafficking, and nitric oxide. Please see: *Cell* 2003; 115: 139-150. *J. Exp. Med.* 2008; 205:1491-50. *Proc Natl Acad Sci U S A.* 2010; 107:6334-9.

Candidates should have a strong background in molecular biology. Please send your *curriculum vitae*, and the names and e-mail addresses of three references to Charles Lowenstein, MD at: Charles.Lowenstein@urmc.rochester.edu.
