## **Estimated Fees:**

Phase I: \$500-\$1000

Phase II: \$3000-\$5000

Phase III: \$500

These costs are just estimates. Fees will depend on the complexity of the assay and the investigator will be responsible for the costs of consumables such as plates and tips and assay reagents. Higher complexity assays will take more time and incur greater costs. Other services will be available at negotiated prices.
