

An Ode to HEART

*As we wrap up Year 2 and begin Year 3*

*Let us pause and reflect on our HEART's CTG*

*Our County cranked data that will help to inform*

*Our public and leaders about what's in the norm*

*Our city officials announced Healthy by Choice*

*To help everyday citizens use their own voice*

*Foodlink unveiled a beautiful truck*

*Selling great local produce for less than a buck*

*GFLATS helped Active Transportation gain traction*

*And even Spiderman got in on the action*

*The City School District assessed all of their schools*

*To avail themselves of resources and tools*

*And speaking of tools I must not forget to mention*

*The YMCA's Diabetes Prevention*

*Let us spread the word so clinicians know*

*There are places for help that their patients can go*

*We have made some great strides but have much work ahead*

*As prevention*

*health equity, and change are our stead*

*But through a network of partners of unmeasured wealth*

*We are solidifying Rochester as the City of Health*
