

Department of Imaging Sciences

Visiting Professor

Mark J. Kransdorf, M.D.

Professor of Radiology, Musculoskeletal Section
Mayo Clinic, Jacksonville, FL

will present the following lectures

“Imaging Evaluation of Soft Tissue Tumors: A Systematic Approach”

and

“Imaging of Osteomyelitis”

Friday, March 30, 2012

11:45 AM – 1:15 PM

Through his training in radiologic pathology and career as a radiologist, Dr. Kransdorf has become one of the world's leading experts in musculoskeletal radiology. He is the leading author on one of the reference texts in the field, *Bone and Joint Imaging* and has authored a second more specialized textbook entitled *Imaging of Soft Tissue Tumors*. He has devoted himself to scholarship in the field of Radiology and serves as a manuscript editor for *Radiology* and the *American Journal of Roentgenology*. He continues to complete scholarly works in the field and has published over 100 manuscripts.

Imaging Sciences Conference Room (G-3302)
