

Department of Imaging Sciences Grand Rounds

“Focus Ultrasound”

Presented by:

Ferenc A. Jolesz, M.D.

B. Leonard Holman Professor of Radiology

Director, Division of MRI & Image Guided Therapy Program

Department of Radiology, Brigham & Women's Hospital, Harvard Medical School

Dr. Jolesz has achieved international recognition as one of the great innovators and leaders in radiological research, maintaining a focus in basic and clinical neurosciences, magnetic resonance imaging, and image-guided therapy. In the early 90's, Dr. Jolesz and his team introduced the intraoperative use of MRI for neurosurgery and other applications like prostate brachytherapy. Today, more than 100 intraoperative MRIs are installed in operating rooms around the world.
