Who Should Attend

This activity is intended for primary care physicians and mid level providers, internists, family practitioners, pain management physicians, neurologists, spinal surgeons, neurosurgeons, radiologists who care for patients with spinal, cerebrovascular, and chronic pain disorders or other health care professionals who provide care to patients with spinal disorders.

Objectives

At the conclusion of this activity participants should be able to:

- Identify and describe key risk factors in the treatment of stroke.
- Describe different treatment options for stroke patients.
- Review several different treatment options for spinal disorders including physical therapy, injections, observation, and surgery and describe the role of each.
- Recognize the gaps in current understanding of spinal pain and recognize areas of controversy meriting further research.
- Describe the role of surgical, interventional, pharmacologic and non-pharmacologic approaches for treating pain of the spinal origin.

Accreditation and Certification Statements

The University of Rochester School of Medicine and Dentistry is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Rochester School of Medicine and Dentistry designates this live activity for a maximum of 3.25 AMA PRA Category 1 credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. Program grants credit to physicians, nurse practitioners and physician assistants only.

Fees

This educational event is **FREE OF CHARGE** to healthcare providers and is made possible by a grant from the Fred L. Emerson Foundation of Auburn. The foundation has generously supported the initiatives of Auburn Community Hospital in providing high quality healthcare to patients in the surrounding community. Offering educational opportunities for healthcare providers together with creating heightened awareness of disease prevention within the Auburn community, is at the heart of the Foundation's mission.
