

Ped Path Schedule - Fall 2001
Week 2
Placental biology and pathology
Genetic Counseling

Time	Mon 11/5	Tues 11/6	Wed 11/7	Thurs 11/8	Fri 11/9
7:00					
7:30					
8:00					Perinatal
8:30	1st Peds Autopsy	Clinic Orientation	H&N/Renal/Derm	SP Unknown	Workshop
9:00	or	Genetic Counseling	Conference	Conference	Genetic Counseling
9:30	Gross Placentas	Clinic		Gross Placentas	Clinic
10:00	and POC's	Meet with Andrea DeVico,		and POC's	Meet with Andrea DeVico,
10:30		Jeanne Peterson, and			Jeanne Peterson, and
11:00		Pam Plumeau in 2-3224			Pam Plumeau in 2-3224
11:30					
12:00					
12:30	Departmental	AP Didactic	Gross/Frozens	CP Didactic	Resident's
13:00	Grand Rounds	Conference	Conference	Conference	CP/On-Call Conf.
13:30		Fetal development	Fetal development	Genetics	Placental biology
14:00		Didactic #1	Didactic #5	Seminar	Didactic #2
14:30	Placenta/POC	Placenta/POC	Placenta/POC	Placenta/POC	Placenta/POC
15:00	Signout	Signout	Signout	Signout	Signout
15:30				Fetal development	Week and
16:00	Pediatric Autopsy			Didactic #2	Article Summary
16:30	Conference				
17:00					
17:30					
18:00					

Didactic topics:

Fetal development #1: **MSAFP Screening: clinical aspects**
Fetal development #2: **PUBS/Rh iso-immunization**
Fetal development #5: **Internet challenges in teratology/dysmorphology**
Placental biology #2: **Placental function**

Peter Wall 2-3229
Eva Pressman 2-3237
Leon Metlay
Rich Miller 5-7550

Learning objectives: Understand how to apply chemical analyses to maternal serum for screening and diagnosis.

Learn how genetic counselors use screening results to counsel patients.

Experience in gross dissection of placentas and POC's

Specific skills: Use the internet to find information useful in performing stillborn autopsies.
