Greetings from the Chair...

James R. Woods, Jr., M.D.
Henry A. Thiede
Professor and Chair
Obstetrics and Gynecology

It is with a great sense of pride that I take on the role as Chairman and Henry A. Thiede Professor of Obstetrics and Gynecology at the University of Rochester Medical Center. Our Department has a long history of providing quality care to our patients and to recruiting and educating highly-competent and caring residents. Excellence in educating residents is carried out best in an atmosphere of professional and intellectual curiosity. Recent expansions of our clinical and basic research activities should place us in the top 10 NIH funded departments within the next several years.

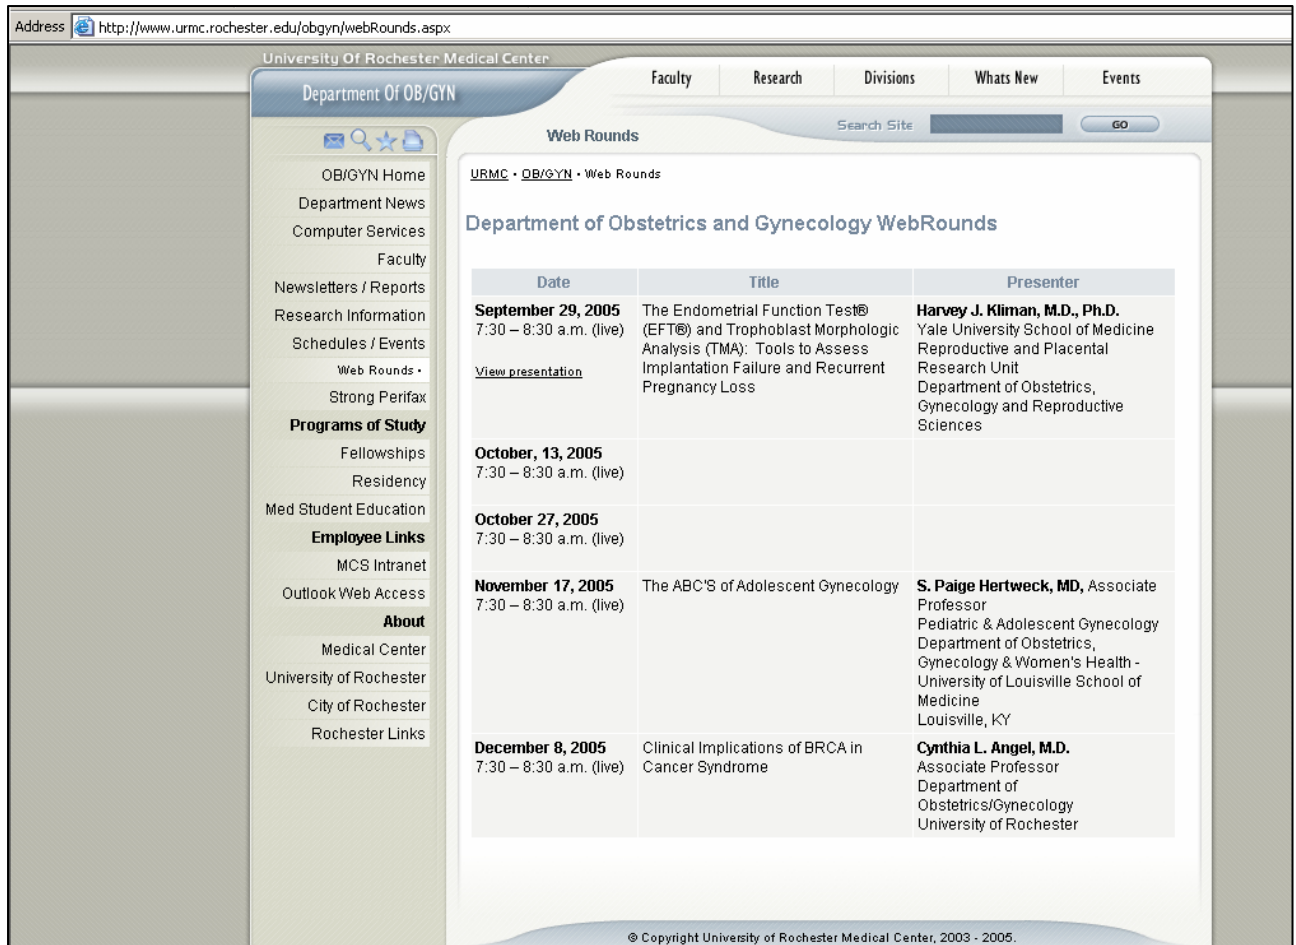

I began my career at the University of Rochester under the leadership of Dr. Thiede., who was Chairman of the Department from 1975 through 1995. During those two decades, he worked tirelessly to develop the Department and its faculty, while conducting his own research in the then-new field of urogynecology. After Dr. Thiede's retirement, Dr. David S. Guzick became the first Henry A. Thiede Professor and Chairman. A well-respected reproductive endocrinologist as well as researcher, Dr. Guzick expanded the Department to continue the legacy of excellence that Dr Thiede began. We all were very proud when, in April of 2002, Dr. Guzick was named as the Dean of the School of Medicine and Dentistry at the University of Rochester. Having a Dean who also is an advocate for women's health research and clinical teaching is a rare commodity and identifies us as one of only four medical schools in the United States led by a Dean trained in obstetrics and gynecology.

Viewing WebRounds Presentations

After selecting “WebRounds” on the left navigation, you will see the main OB/GYN WebRounds screen:

The screenshot shows the University of Rochester Medical Center website. The address bar displays <http://www.urmc.rochester.edu/obgyn/webRounds.aspx>. The page title is "Department Of OB/GYN". The navigation menu on the left includes: OB/GYN Home, Department News, Computer Services, Faculty, Newsletters / Reports, Research Information, Schedules / Events, Web Rounds (selected), Strong Perifax, Programs of Study (Fellowships, Residency), Med Student Education, Employee Links (MCS Intranet, Outlook Web Access), About (Medical Center, University of Rochester, City of Rochester, Rochester Links). The main content area is titled "Web Rounds" and contains a table of presentations.

Then, simply select the presentation you'd like to view from the calendar of options.

You will see a split screen appear with the speaker on the left and the PowerPoint presentation on the right.

Frequently Asked Questions:

Why don't I see any video in the video window?

The presentation may be audio only, or you may not have the current version of Windows Media Player installed.

The presentation doesn't appear.

If it's a live presentation, it may not have started on time. If you're using pop-up blocker, configure it to allow site pop-ups. You may need to click on "View" and then select "Refresh" from your browser's toolbar.

What should I do if I don't have the correct version of Windows Media Player?

To install the latest version of Windows Media Player, go to the [Windows Media](http://www.microsoft.com/windows/windowsmedia) download site.

Video controls

Use the buttons below the video display to control playback, video settings, and volume settings.

Item	Description
Trackbar	If you're watching an on-demand presentation, drag the trackbar to seek through the presentation.
 Play	Click to resume playback after stopping or pausing the presentation.
 Pause	Click to suspend playback. Click Play to resume.
 Stop	Click to halt playback. When you're viewing a live presentation, clicking Stop may cause you to miss some of the presentation when you begin watching again, the video and images appearing in the <i>Mediasite Viewer</i> are those being broadcast in real time. When you're viewing an on-demand presentation, playback will start at the beginning of the presentation when you click Play .
 Full Screen	Click to enlarge the video to fill your monitor. Press Esc to exit full-screen mode.
 Mute	Click to turn off the presentation's audio. Click again to turn it on again.
 Volume	Click + to increase volume, or click - to decrease volume.

Slide show controls

Use the buttons above the slide show to navigate the slide show, view a slide list, or enlarge the slide.

Item	Description
Slide Show	Click to display presentation support material or images of speaker material one at a time.
	Click the Show full-size image indicator  in the lower-right corner of the slide or anywhere on the slide to playback the slide show in full size mode. See Max Slide
Slide List	Click to view all available presentation support material at once. The current slide is highlighted.
	Click any slide or image to open in a larger window. You can also preview each slide or play the project from that point.
Max Slide	Click to display the slide show in full size mode. Click anywhere on the slide to start playback from the current slide. Select the Auto Refresh check box (which also sets that option in the Options dialog box) to automatically update <i>Mediasite Viewer</i> slide images as the speaker changes them. Click Refresh Now to manually retrieve and display the latest slide image.
 Previous Slide	Click to navigate through the slides in on-demand mode. This option is not available for live presentations.
