# DEPARTMENT OF MEDICINE

---

The Department of Medicine is dedicated to the pursuit of excellence in patient care, teaching, and research. There are 12 units that make up the Department: Allergy/Immunology and Rheumatology, Cardiology, Clinical Pharmacology, Digestive and Liver Diseases, Endocrine-Metabolism, General Medicine/Geriatrics, Genetics, Hematology/ Oncology, Infectious Diseases, Nephrology, Pulmonary and Critical Care, and Vascular Medicine. In addition, the Clinical Research Center provides for multidisciplinary research studies. An important asset of the Department is the large group of part-time faculty who admit their patients to Strong Memorial and Highland Hospitals and participate in our teaching programs.

In addition to the faculty based at Strong Memorial Hospital, there are faculty based at other area hospitals. These faculty provide teaching and research efforts conducted at Highland, Monroe Community, and Rochester General Hospitals, and Unity Health System. The organization of faculty at the affiliated hospitals is similar to the units at Strong Memorial Hospital. There is a continuous effort made to coordinate the research and teaching activities of the units based at Strong Memorial Hospital with those in the affiliated hospitals.

## EDUCATIONAL PROGRAMS FOR UNDERGRADUATE MEDICAL SCHOOL CURRICULUM

The faculty of the Department of Medicine participate in basic science teaching, clinical teaching in the Medicine Clerkship, and also make major contributions to inter-departmental teaching programs. These include Ambulatory Care, Mechanisms of Human Disease, the General Clerkship, and the Tutorial Program. In addition, units of the Department offer a wide variety of electives to fourth-year medical students.

## RESEARCH OPPORTUNITIES, RESIDENCY PROGRAMS, AND FELLOWSHIPS

There are research opportunities with the following medical subspecialties: Allergy/Immunology and Rheumatology, Cardiology, Clinical Pharmacology, Endocrine-Metabolism, Gastroenterology, General Medicine/Geriatrics, Genetics, Hematology/Oncology, Infectious Diseases, Nephrology, Pulmonary and Critical Care, and Vascular Medicine. Fellowships are available in most of these subspecialties.

The Department has a categorical Internal Medicine Residency Program and also participates in two combined residency programs, Medicine/Pediatrics and Medicine/Psychiatry.
