

With Medical Guardian  
you're never alone... **get  
help in just 3 Simple  
Steps.**

In an emergency, every second counts.

STEP 1

**PRESS YOUR  
MEDICAL ALERT BUTTON**

You will be connected immediately  
to our 24/7, U.S.-based monitoring  
center within moments.

STEP 2

**SPEAK WITH AN  
EMERGENCY OPERATOR**

Our highly-certified operators  
help you determine which type  
of service you need.

STEP 3

**RECEIVE HELP 24/7**

Whether you need emergency  
services or an emergency contact,  
help is on the way.

Why do I need a  
medical alert system?

**1 IN 4**

older adults falls every year.  
**Falling once doubles the risk of  
falling again.<sup>1</sup>**

Falls are the **leading cause  
of injuries and deaths** among older  
adults.<sup>1</sup>

After a fall, **90%** of older  
adults who get **help within 1 hour**  
will be able to return home.<sup>1</sup>

## AT HOME

### Classic Guardian Affordable, reliable solution

- Wearable pendant works up to 1,000 ft. from base station
- VOIP Compatible
- 100% US-Based Monitoring
- Audible announcements for ease of use

A cost-efficient medical alert system, the **Classic Guardian** keeps you safe both in and around your home for less than \$1 a day.

### Home Guardian 4G Best value, 4G LTE service

- Cellular coverage indicator lights
- 48hr. backup battery life in case of power outage emergencies
- 1,000 ft. wearable pendant range
- Enhanced two-way voice speaker

**Home Guardian 4G LTE** uses a nationwide cellular network to wirelessly connect you to our 24/7 monitoring center.

### 100% US-Based Monitoring

Our monitoring center is highly accredited and 100% based within the U.S. This means that help is dispatched and sent directly to you—locally and across all 50 states. When you press your button, our operators will dispatch either emergency or non-emergency services, depending on your needs.

## ON-THE-GO

### Mini Guardian

- WiFi location service
- Get up to 5 days of battery life on a single charge
- 4G LTE cellular connectivity

**On the Go Guardian** keeps you protected both at home and when you're away from home with WiFi location assistance. The portable medical alert device connects you instantly to our 24/7 monitoring center through a nationwide cellular network.

### Active Guardian All-in-one wearable device

- Wearable, 2-way communication
- Location ID using GPS & WiFi
- Water resistant for use in the shower or bath

Enjoy the freedom to keep doing what you love both inside and outside of your home with the **Active Guardian**, an all-in-one medical alert system with GPS, WiFi, and optional fall detection capabilities.

### Freedom Guardian 2.0 Medical alert system smartwatch

- Text-to-speech messaging
- Calendar alerts & reminders
- GPS & WiFi location services

Designed to help keep your healthy aging on track, **Freedom Guardian** combines round-the-clock medical monitoring with enhanced features like messaging, weather, and calendar alerts and reminders. Never miss what matters most!
