

# Department of Anesthesiology and Perioperative Medicine Summer Externship Program 2021

*Does exploring the world of anesthesiology and perioperative medicine sound like an exciting way to spend your summer?  
Consider applying for the  
Department of Anesthesiology and Perioperative Medicine's  
competitive summer externship!*

## What is this Externship all about?

Students will be paired with an anesthesiology resident for each rotation and will have additional educational opportunities to attend didactic lecture series. The program includes 8 weeks of direct observation of patient/physician interactions while rotating through various service lines including:

- General operating room
- ICU (trauma or surgical)
- Cardiothoracic Anesthesia
- Obstetric unit
- Pain management service
- Regional anesthesia (ultrasound guided nerve blocks)

There are also opportunities to participate in research projects with a faculty mentor!

There is a \$3,000.00 stipend associated with this externship.

Who can apply?

Designed for medical students between the first and second year of medical school, the objectives of this externship support the concepts learned in pharmacology and physiology.

How can I apply?

Submit your CV and 1-page letter of interest to:  
<https://is.gd/summerexternshipapplication>

We will decide on three participants by 3/22/21

"I truly enjoyed my summer externship experience with the Anesthesiology Department for the mentorship paralleled with a structured, yet flexible, time to experience, learn, and research. One of my favorite parts was seeing what I learned during my first year of medical school be directly applied in the operating room and during grand rounds. Also, I was able to meet welcoming residents and attendings who were so eager to help me with research and provided me with excellent mentorship. This summer was an excellent experience and I would recommend it... you cannot go wrong!"

**Courtney Vidovich - URSOM 2023  
Summer 2020 participant**
