

IN OUR OFFICE...

We offer chemical peels of varying strengths and blends which allow us to select a peel appropriate for your skin type and condition.

Most peels can be completed in less than thirty minutes with no downtime or adverse side effects.

Our peels offer a variety of beneficial ingredients to help strengthen, brighten and improve the surface and texture of your skin.

In addition to chemical peels, we offer consultations and treatments for skin discoloration, acne, sensitive skin, rosacea, fine lines and wrinkles; a full line of facials; facial waxing; and lip treatments.

Dr. Timothy Doerr also offers state-of-the-art office based treatments for facial lines and wrinkles which are minimally invasive and provide immediate results.
