

# C-SECTION REDERIVATION ESTIMATE OF CHARGES

•**Technical assistance time:** includes weighing and pairing of mice, plug checks, pregnancy checks, ordering foster dams, observations for new pups, retrieval of mice and post-surgical manipulations and observations.

For each group of mice paired on day #1 = **\$250.00**

•**Materials/Equipment** used for rederivation procedure = **\$55.00**

•**Foster dams:** ordered to arrive at 14 days gestation from Taconic Laboratories

**\$84.60** per Swiss Webster mouse + **\$45.00** shipping for up to 10 mice

•**Surgery:** includes euthanasia of donor dam, c-section rederivation and resuscitation of transferred pups

For each donor mouse with successful litter (at least one live pup provided to foster dam) = **\$215.00**

For each mouse with nonviable delivery = **\$55.00**

*\*Charges are for each attempt i.e. each group of mice paired on a particular day. Pairing will only occur once weekly.*

*\*Charges do not include per diems and quarantine diagnostic tests*

C-section rederivation charges for fiscal year 2017 - 2018
