ADVANCED TRAUMA CARE FOR NURSES PROVIDER COURSE

ATCN®

ATCN® Course Description

The Advanced Trauma Care for Nurses (ATCN®) Provider Course is taught concurrently with the Advanced Trauma Life Support (ATLS®) course for physicians. This program has been sanctioned by the Committee on Trauma of the American College of Surgeons, and was developed to teach established standards of trauma care and practical life-saving skills to nurses.

The ATCN® course is designed for the experienced trauma nurse working in the emergency department, perioperative area, intensive care, medical and surgical units as well as the prehospital setting.

Nursing skills practicum stations and moulage assessment stations are conducted by ATCN® instructors for integration and application of didactic information.

OBJECTIVES

Upon completion of this program, the nurse will be able to:

- Understand the principles of primary and secondary patient assessment
- Establish management priorities in a trauma situation
- Demonstrate skills in the management of the multiply traumatized patient

CREDITS

19.0 contact hours are provided by the Society of Trauma Nurses, which is accredited as a provider of continuing education in nursing by the California State Board of Education
