

Candidate Selection Criteria

The Cancer Control Research Training Program seeks individuals with recent doctorates (Ph.D., Dr.P.H., M.D.) in health-related areas and who are highly motivated to develop a successful research career in cancer control.

Candidates must be United States citizens or permanent residents. Two years of funding with stipends of \$70,000 per year are offered along with tuition, health insurance, childcare costs, research support, travel to up to four scientific meetings per year and an appointment as a Research Assistant Professor. Applications from women and other underrepresented groups are strongly encouraged. The position will begin during the Summer of 2025.

How to Apply

Applicants submit:

1. A curriculum vitae
2. A statement of your interest telling specifically how this program would help you get from where you are to where you want to be professionally (a convincing section on your passion for research is a definite plus)
3. Three signed academic letters of support (have them sent to you and include them with the other two required items when you submit the completed application)

The application deadline is **January 15, 2025**. Applications may be emailed or mailed.
