CEL Offerings

[CEL Activities and Event Management](#)

The CEL office is fully staffed with professional meeting planners ready to assist you with every aspect of event planning. Our fees for managing a fully-coordinated conferences are based on the level of sophistication of the program. [Learn More](#)

[Anatomical Gift Program](#)

From time to time, people talk about "donating their body to science" when they die. But, similar to organ donation or estate planning, they often may not know what that entails, how to go about it, or even how to express their wishes to their loved ones. [Learn More](#)

[Continuing Medical Education \(CME\) Transcript](#)

UR CEL: Access and Manage CEL's Educational Activities at your convenience. UR CEL is URM's online self-service portal for Continuing Education activities. [Learn More](#)

[Continuing Medical Education \(CME\)](#)

The University of Rochester School of Medicine and Dentistry is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The Center for Experiential Learning (CEL) offers a diverse and multi-faceted array of CME activities, and ensures that any URM-sponsored activity receiving AMA PRA Category 1 Credit(s)™ meets the standards established by the ACCME. [Learn More](#)

[CEL Resource Scheduler office](#)

The Center for Experiential Learning (CEL) resource schedulers schedule courses, activities, and events throughout the Medical Center, School of Nursing, and Saunders Research Building. [Learn More](#)

[CEL Resource Scheduler](#) (Online Viewing Space and Room Availability)

[CEL Resource Scheduler New Service Request Form](#) (To submit New Service Request Form, complete and click "submit" at the bottom right of the form)

[CEL Resource Scheduler office](#) (To email the CEL Resource Schedulers directly)

[Simulation](#)

Simulation-based training and other experiential learning modalities are fast becoming the gold standard in health professions education. Using simulation-including standardized patients, simple task trainers, computer-enhanced patient mannequins, procedural trainers, and virtual reality-physicians, nurses, and other healthcare providers can master basic manipulative skills, complex cognitive and interdisciplinary teamwork skills and challenging technical procedures without risk to patients. [Learn More](#)

[Standardized Patient Program](#)

The Standardized Patient Program, first developed in 1999, is an integral component of the Center for Experiential Learning. The program is supported by three staff members who recruit, train and schedule a pool of approximately 150 Standardized Patients (SPs). The standardized patient pool is representative of the diverse ethnic and racial demographics of the greater community and range in age from 16-80s. [Learn More](#)

[CEL Staff](#)

The CEL staff will work with you to utilize our state-of-the art facilities, programming, and services to create a successful event. We are here to help and answer any questions you may have. [Learn More](#)
