

August 2014 Newsletter

This month we are featuring our... **periFACTS Store**

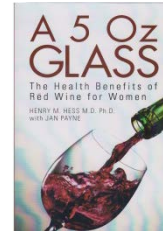

NEW in our Store! A Selection of Health-Related Books including...

Period Peace

A Fun Menopause Activity Book

Period Peace is an activities oriented, interactive, humorous romp through the signs and symptoms of menopause. This creative approach will have women laughing out loud as they maneuver through mazes, tongue twisters, word searches, and games that focus on this distinctly female topic. This book celebrates and pokes playful fun at all things menopausal and doesn't devalue women in the process.

A 5oz Glass

The Health Benefits of Red Wine for Women

Dr. Henry M Hess, MD, PhD, gynecologist, chemist, and wine expert explains that wine and hormones affect women differently than men. In his new book, A 5 Oz Glass: The Health Benefits of Red Wine for Women, Dr. Hess established new rules for women to enjoy wine and reap all the health benefits while avoiding the risks.

And many more! Visit the [Books section](#) in our store today to view our collection and to purchase!
