Our June newsletter is dedicated to **Women's Health**

Our newsletter format will feature important industry news, periFACTS® programs and books, and a sneak peek to what's new this month for our monthly subscribers!

In The News

[The women possibly at higher risk for Covid-19 that no one is talking about](#)

More than a year into the pandemic, one study has found that some women are at higher risk for Covid-19 compared to others in their age and sex groups. These women, often young and otherwise healthy like Aguilar, have an underlying condition that isn't mentioned on any Covid-19 comorbidity list: polycystic ovary syndrome, or PCOS.

CNN Health (5/2021)

[Pandemic worsens breast cancer screening disparities among minority women](#)

COVID-19 has only worsened breast cancer screening disparities among minority women, according to new research published Monday in JAMA Network Open. Numerous studies have detailed the pandemic's outside impact on mammography volumes, with some providers seeing drops as severe as 90% at certain points. Fresh information from Washington State University is now underlying how these trends are hitting women of color harder than others.

Radiology Business (5/2021)

[Ultrasound improves birth outcomes in GDM pregnancies](#)

Women with gestational diabetes mellitus who were guided by fetal ultrasounds to manage their condition had a lower risk of giving birth to an infant with hypoglycemia than women who did not receive ultrasound guidance, according to a study published in Diabetes Research and Clinical Practice.

Store Feature

Essentials of Inpatient Obstetric Nursing Care

Save \$100 Instantly This Month Only!

Save \$100 on our Essentials of Inpatient Obstetric Nursing Care Series with 50 CNE Contact Hours!

Our Essentials of Inpatient Obstetric Nursing

Care program is ideal for both new and experienced nursing professionals to introduce and reinforce the essentials of inpatient obstetric care.

Our program is designed to orient a new nurse to the perinatal unit and provide the most current and comprehensive education for a more experienced staff member.

The program will help reduce risk and errors, increase efficiency and patient care, reinforce and document staff competency, and grow the knowledge and skills of the learner in inpatient obstetrics.

This offer includes access to all six courses for one person for one year with the ability to earn 50 CNE Contact Hours.

Regular Price: \$350 | SALE PRICE: \$250 per person*

[LEARN MORE](#)

New This Month - June Curriculum for Subscribers

Obstetrics Topic - Aging focusing on:

- Risks of the Nulliparous Patient of Advanced Maternal Age
- The Etiology of Meconium-Stained Amniotic Fluid

Women's Health Topic: **Reproductive Challenges in Older Women**

Video Topic: **Oxygen Transfer in the Placenta**

Clinical Quandary: **We have a large population of mothers on magnesium sulfate for management of preeclampsia. Is there a need to evaluate a neonate for potential clinical hypermagnesemia, and if so, which neonates?**

A PAUSE for menoPAUSE: **I am 57 years old with a range of menopause symptoms. However, when I go to my OB/GYN appointments, there is never enough time to describe what I am experiencing. Is there a better way to communicate with my care provider?**

Grand Rounds Web-lecture: **Elective Fertility Preservation**
