Our June Newsletter is dedicated to Maternal Care

Our newsletter format will feature important industry news, periFACTS® programs and books, and a sneak peek into what's new this month for our monthly subscribers!

In The News

[American women need more maternity leave, access to pregnancy care](#)

Pregnancy is a difficult and potentially dangerous time in a woman's life, and U.S. women say they aren't getting the support they need while they're expecting, a new HealthDay/Harris Poll has found.

HealthDay (5/2023)

[Fibroid size, location affect postpartum hemorrhage risk](#)

The size of fibroids and location in the lower uterine segment or cervix are associated with increased risks of postpartum hemorrhage (PPH) and PPH requiring packed red blood cell transfusion (PPH+PRBC), while the number of fibroids is not associated, according to a recent study published in The American Journal of Obstetrics and Gynecology.

Contemporary OB/GYN (5/2023)

[Simple, low-cost treatment process could save thousands of new mothers' lives every year](#)

Postpartum hemorrhage is the leading cause of maternal mortality worldwide. New research suggests pairing a low-cost device with a quick bundle of treatments to stop blood loss.
