

Our March newsletter is dedicated to Patient Safety & COVID-19

Our newsletter format will feature important industry news, periFACTS® programs and books, and a sneak peek to what's new this month for our monthly subscribers!

In The News

[Pfizer launches COVID-19 Vaccine Trial for Pregnant Women to Assess Safety](#)

The global trial will assess the vaccine's safety, immunogenicity and tolerability, with each participant to be observed for an estimated seven to 10 months, dependent on whether they were given a placebo or vaccine.

MPR (2/2021)

[Fauci: Relaxed CDC guidance for fully vaccinated people may be coming 'soon'](#)

Anthony Fauci, the nation's top infectious diseases expert, says the Centers for Disease Control and Prevention (CDC) could soon release more relaxed safety recommendations for people who have been fully vaccinated against COVID-19.

The Hill (2/2021)

[CDC reports on COVID-19 vaccine rollout, safety data](#)

The agency also disclosed that safety profiles for both COVID-19 vaccines are reassuring and that no new adverse events have been reported, while 6,994 adverse events notifications were received after vaccination, 90.8% of which were considered nonserious and 9.2% classified as serious, based on data published in the CDC's Morbidity and Mortality Weekly Report released last week.
