

Current. Comprehensive. Continuing Education Online.

Our September Newsletter is dedicated to Pregnancy Management

Our newsletter format will feature important industry news, periFACTS® programs and books, and a sneak peek into what's new this month for our monthly subscribers!

In The News

[IBD Tied to Higher-Risk Pregnancies](#)

Women who have inflammatory bowel disease (IBD) should work with a doctor to get it into remission before pregnancy, a new study indicates.

HealthDay (8/2022)

[The Importance of B Vitamins in Pregnancy](#)

With age, it becomes harder to absorb vitamin B, as our stomach may not be as efficient in absorbing it fully. Those who are pregnant, have certain chronic health conditions, take certain long-term medications, drink excessive alcohol, and eat a strictly meat-free diet are also more prone to vitamin B deficiency.

Well + Good (7/2022)

[Telehealth May Fit Well in Pregnancy, Postpartum Care](#)

Using telehealth to supplement or replace in-person maternal care services, such as postpartum depression and diabetes and hypertension monitoring during pregnancy, leads to similar -- and sometimes better -- clinical outcomes and patient satisfaction compared to in-person care.

UPI (8/2022)

[Stillbirths linked to vaccine hesitancy, COVID-19 disinformation](#)

Unvaccinated women who contracted COVID-19 during pregnancy were at a higher risk of stillbirths. They also were more likely to be admitted to the intensive care unit, give birth prematurely or die. Yet their greatest protection — the COVID-19 vaccine — sat largely untouched, buried under doubt, polluted by disinformation.

ProPublica (8/2022)

Store Feature
