

Center for AIDS Research **Spring 2018 Request for Applications -** **General HIV/AIDS Proposals REVISED**

APPLICATION DEADLINE: April 9, 2018 by 5 PM EST

Purpose and Scientific Areas of Interest

To support a broad range of highly innovative research projects and pilot studies to address key gaps in our understanding of HIV/AIDS, with emphasis on **the NIH HIV/AIDS High Priority Research Topics** that have been designated by National Institutes of Health ([NIH](#)) and Office of AIDS Research ([OAR](#)) (see attached list). Proposals are expected to include investigators at both UR and UB, and to have a high likelihood of leading to followon funding and publications.

Eligibility

Applications must include Co-PIs from both the University of Rochester (UR) and the University at Buffalo (UB). The submitting Co-PI must hold a faculty appointment (not adjunct) at University of Rochester. The following individuals may serve as Co-PIs:

- UR or UB Associate Professors, Assistant Professors, or Research Assistant Professors (or similar) whose primary field is in HIV/AIDS, but who have not received an NIH R01 award or equivalent as PI/MPI in HIV/AIDS (New Investigators working in HIV/AIDS)
- UR or UB Associate Professors, Assistant Professors, or Research Assistant Professors (or similar) with no history of NIH funding in HIV/AIDS research (investigators new to HIV/AIDS research)
- UR or UB Associate Professors, Assistant Professors, or Research Assistant Professors (or similar) with a history of NIH funding in HIV/AIDS research (established HIV investigators)
- The submitting Co-PI must hold a faculty appointment (not adjunct) at UR.

Collaborating Faculty may include:

- UR or UB Professors, Associate Professors, Assistant Professors, or Research Assistant Professors (or similar) collaborating with any of the above categories of faculty, including in a scientific mentoring role.
- **Added note: Potential eligibility of T32 awardees and postdocs to work on CFAR Pilot awards must be reviewed prior to submitting the application. K awardees are not eligible to receive salary support from a CFAR pilot award. Please contact [Laura Enders](#) for further information about T32 recipients and K awardees eligibility on a project before submitting the application.**

Special Note:

CFARs cannot fund clinical research studies that are considered clinical trials (i.e., that include randomization to one or more low risk interventions to evaluate the effects of those interventions on health-related biomedical or behavioral outcomes [[NOT-15-015](#)]). Other clinical research studies are permitted.

More information regarding the updated definition of a clinical trial can be found on the [NIH website](#) and also at: [Does your human subjects research study meet the NIH Definition of a clinical trial?](#)

Projects will receive the highest priority if they:

- Have strong potential for follow up funding by national, state or private agencies
- Are innovative, interdisciplinary and create new inter-institutional collaborations

Awards

Up to 3 awards will be made for up to a 12-month period, with pilots ranging from **\$20,000 – \$50,000** in Direct Costs. **Earliest start date is 5/1/18. End date must be 4/30/19. Extensions past 4/30/19 are not guaranteed.** Please contact [Laura Enders](#) prior to submission to discuss your proposal - including which components will be at UR and UB, and the related budget requirements.

Application Instructions

Applications must be submitted to Laura Enders, Laura_Enders@urmc.rochester.edu, before or on **April 9th, by 5 PM EST**. Applicants are to submit the application electronically as a single file attachment in pdf format.

Application Requirements:

- CFAR Proposal sign-off form
- Draft Cost Sharing form signed by PI's and department (fully signed forms will be required for pilots selected for funding). Contact Laura Enders to determine the correct institutional form (UB or UR).
- Modified PHS 398 face page (page 4 of these guidelines)
- Abstract
- Identification of the **High Priority Research Topic** that this application will focus on (see the attached NIH HIV/AIDS Research Priorities list as designated by NIH and OAR)
- NIH-format biosketch for PI's, co-investigators and mentors
- Updated Other Support for both PI's
- Research Plan (limited to 3 pages):

The Research Plan consists of items noted below, as applicable. It should be self-contained and include sufficient information to evaluate the project, independent of any other document (e.g., previous application). Be specific and informative, and avoid redundancies.

 - Specific Aims
 - Research Strategy (Significance, Innovation and Approach)
 - Timeline
 - Source of Samples
- Human Subjects and Animals (no limit):

The Human Subjects and Animals Plan consists of items noted below, as applicable. It should be self-contained and include sufficient information to evaluate the project, independent of any other document (e.g., previous application). Be specific and informative, and avoid redundancies.

 - Protection of Human Subjects
 - Vertebrate Animals
- Plans for Future Funding (limited to 1 page):
 - Provide a short outline of how the pilot will develop into a NIH-funded grant. It should include the proposed hypothesis and specific aims intended for a NIH grant application as well as the projected timeline for submission.
- Data Analysis Plan (half-page limit):
 - Provide a brief data analysis plan and identify if bioinformatics support is needed for data collection and management.
- Mentoring Plan (if applicable):
 - Identify a primary mentor and provide a clearly delineated mentoring plan, including frequency and methods. The plan should identify long-term needs and goals in order to establish a successful independent academic career within the next 2 to 5 years.
- Budget (limited to 1 page using PHS 398 Form Page 4, providing a detailed description of supplies and other expenses within the form page):
 - Applicants can apply for **\$20,000 - \$50,000** in direct costs. Maximum of \$50,000 DC per pilot application.

- Earliest start date 5/1/18, end date must be 4/30/19.
- Unless exceptional circumstances, funds may not be used to support faculty salary but the budget must identify the proposed effort.
- Funds may not be used for travel to professional meetings or equipment.
- Funds may be used to support research supplies and expenses, travel to collect data and other non-faculty salary.
- If applicable, identify other sources of support that will be used to complete the pilot project.

Bibliography

Submission and Review Process

This is an internal competition for NIH-funds already awarded to the CFAR. **ORPA review and sign-off is not required but departmental review and approval should be sought through the CFAR sign-off form.**

Proposals will be reviewed by a faculty committee and will be assigned a priority score in accordance with these 6 categories:

- Significance (including scientific premise and hypothesis)
- PIs, Scientific Team & Environment
- Innovation and Multidisciplinary Approach
- Experimental Approach (including methods and authentication of key biological and/or chemical resources, if applicable)
- Responsiveness to the terms of this RFA
- Probability of future NIH funding

A summary of the reviewers' comments will be provided once the review process has been completed

Award Process

CFAR will notify selected investigators via email within 2-3 weeks of the application deadline. Funding will not be released until all UR and NIH regulatory requirements have been met including IRB, IBC and IACUC approvals as applicable. Upon receipt of all required documentation, the CFAR will issue a formal internal Notice of Award.

Reporting Requirements

The pilot PI will be required to present the status of the pilot project work to the CFAR Steering or Mentoring Committee.

CFAR is required to report the outcome of this award to NIH for a period of no less than 5 years. Routine reporting is thus required of the investigator and should be comprised of a written report, which must include the following:

- Status of the work supported by pilot grant
- Statement regarding resulting grant applications, publications, presentations and inventions
- Update regarding plans for future funding resulting from the project

Awardees may also be asked to present their projects and results at a CFAR sponsored event and/or annual World AIDS Day Scientific Symposium.

[NOT-HL-15-280](#)

Issued by

National Institutes of Health ([NIH](#))

Office of AIDS Research ([OAR](#))

Purpose:

The NIH supports a comprehensive portfolio of biomedical, behavioral, and social science research on HIV and its associated coinfections, comorbidities, and other complications. The Office of AIDS Research (OAR), a component of the NIH Office of the Director, is legislatively mandated to coordinate, plan, evaluate, and budget for the NIH AIDS research program. Building on the most recent scientific progress and scientific opportunities to most likely contribute to ending the AIDS pandemic, developing a cure for HIV/AIDS, and achieving an AIDS-free generation, NIH has identified the highest HIV/AIDS research priorities for the next 3-5 years. NIH will use these guidelines to ensure that AIDS resources are supporting the highest HIV/AIDS research priorities. The overarching NIH HIV/AIDS research priorities are: 1) research to reduce the incidence of HIV/AIDS, including the development of safe and effective HIV/AIDS vaccines; 2) development of the next generation of HIV therapies with improved safety and ease of use; 3) research towards a cure for HIV/AIDS; and 4) HIV-associated comorbidities and co-infections. Basic research, health disparities, and training that cross-cut these priorities also will be supported. These priorities were informed by the OAR Advisory Council's recommendations, the Annual Trans-NIH Plan for HIV-Related Research, and input from NIH leadership. Implementation of these priorities will begin with fiscal year 2016 funding of HIV/AIDS research.

The NIH has developed a series of guidelines for determining whether a research project has a high-, medium-, or low-priority for receiving AIDS-designated funding. These guidelines do not assess/determine the scientific and technical merit of a project only the priority for receiving AIDS-designated funds. A description of these priority topics and examples of each are provided below.

High Priority topics of research for support using AIDS-designated funds

- Reducing Incidence of HIV/AIDS including: developing and testing promising vaccines, developing and testing microbicide and pre-exposure prophylaxis candidates and methods of delivery, especially those that mitigate adherence issues; and developing, testing, and implementing strategies to improve HIV testing and entry into prevention services.
- Next generation of HIV therapies with better safety and ease of use including: developing and testing HIV treatments that are less toxic, longer acting, have fewer side effects and complications, and easier to take and adhere to than current regimens. Additionally, implementation research to ensure initiation of treatment as soon as diagnosis has been made, retention and engagement in these services, and achievement and maintenance of optimal prevention and treatment responses.
- Research toward a cure including: developing novel approaches and strategies to identify and eliminate viral reservoirs that could lead toward a cure or lifelong remission of HIV infection, including studies of viral persistence, latency, reactivation, and eradication.
- HIV-associated comorbidities, coinfections, and complications including: addressing the impact of HIV-associated comorbidities, including tuberculosis, malignancies; cardiovascular, neurological, and metabolic complications; and premature aging associated with long-term HIV disease and antiretroviral therapy.
- Cross cutting areas: Basic research, health disparities, and training including:
- Basic Research: understanding the basic biology of HIV transmission and pathogenesis; immune dysfunction and chronic inflammation; host microbiome and genetic determinants; and other fundamental issues that underpin the development of high priority HIV prevention, cure, co-morbidities, and treatment strategies.
- Research to Reduce Health Disparities in the incidence of new HIV infections or in treatment outcomes of those living with HIV/AIDS.
- Research Training of the workforce required to conduct High Priority HIV/AIDS or HIV/AIDS-related research.

Further information can be found at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-15-137.html>

CFAR Checklist (to be included with proposal):

- Completed CFAR Proposal Packet Checklist indicating submitted items (to be submitted as part of the combined PDF)
- CFAR Proposal sign-off form (see bottom of these guidelines for printable version)
- Draft Cost Sharing form signed by PI and department (fully signed forms will be required for pilots selected for funding). See UR ORPA website for the form. Contact [Laura Enders](#) for more information or a blank form.
- CFAR Grant Cover Sheet - Modified PHS 398 face page
- Abstract
- Identification of the **High Priority Research Topic** that this application will focus on (see NIH HIV/AIDS Research Priorities list as designated by NIH and OAR included in these guidelines)
- NIH-format biosketch for PI, co-investigators and mentors
- Updated Other Support for PI's only
- Research Plan (limited to 3 pages):

The Research Plan consists of items noted below, as applicable. It should be self-contained and include sufficient information to evaluate the project, independent of any other document (e.g., previous application). Be specific and informative, and avoid redundancies.

 - Specific Aims
 - Research Strategy (Significance, Innovation and Approach)
 - Timeline
 - Source of samples
- Human Subjects and Animals (no limit):

The Human Subjects and Animals Plan consists of items noted below, as applicable. It should be self-contained and include sufficient information to evaluate the project, independent of any other document (e.g., previous application). Be specific and informative, and avoid redundancies.

 - Protection of Human Subjects
 - Vertebrate Animals
- Plans for Future Funding (limited to 1 page):
 - Provide a short outline of how the pilot will develop into a NIH-funded grant. It should include the proposed hypothesis and specific aims intended for a NIH grant application as well as the projected timeline for submission.
- Pharmacology Shared Resource Request Sheet (if applicable)
- CFAR Analysis Plan (half-page limit):
 - Provide a brief data analysis plan and identify if bioinformatics support is needed for data collection and management.
- Draft Cost Sharing form signed by PI and department (fully signed forms will be required for pilots selected for funding). See UR ORPA website for the form.
- Mentoring Plan (if applicable):
 - Identify a primary mentor and provide a clearly delineated mentoring plan, including frequency and methods. The plan should identify long-term needs and goals in order to establish a successful independent academic career within the next 2 to 5 years.
- Budget (limited to 1 page using PHS 398 Form Page 4, providing a detailed description of supplies and other expenses within the form page):
 - Applicants can apply for **\$20,000 - \$50,000** in direct costs. Maximum of \$50,000 DC per pilot application.
 - Earliest start date 5/1/18, **end date must be 4/30/19.**
 - Unless exceptional circumstances, funds may not be used to support faculty salary but the budget must identify the proposed effort.
 - Funds may not be used for travel to professional meetings or equipment.
 - Funds may be used to support research supplies and expenses, travel to collect data and other non-faculty salary.
 - If applicable, identify other sources of support that will be used to complete the pilot project.

ADMINISTRATIVE AND POLICY CONSIDERATIONS (MUST BE COMPLETED BY PI) - Please explain "yes" responses on additional sheets

NOTE: All Co-Investigators, and other named investigators, MUST complete Section A ("Additional Signatures Certification")

Yes No 1. Does this project contain a clinical research component with clinical procedures?
If "Yes", complete Section B (on page 4).
2. Does this project require additional/new space or renovation/modification of current space or facilities?
Check all that apply:
Equipment/Utility support _____ Additional, New or Renovated Space _____ If yes, include an explanation on amount of space needed, cost and source of funds.
3. Does this proposal involve cost sharing or matching funds? If yes, complete below:
-Total Amount of cost sharing _____
-Type of cost being shared _____
-Planned cost share UR Financials FAO(s) _____
-If the cost sharing is Third Party Cost Sharing, attach a Pre-award THIRD PARTY COST SHARING FORM
4. Will research use human subjects?
5. Will research use animals?
6. Will research use radioactive materials or isotopes?
7. Will research use human embryonic stem cells?
8. Are you requesting less than the maximum F&A costs as allowed by the sponsor's written policy?
9. Will there be subcontracts to other institutions?
Number? _____
10. Is any program income anticipated under this project?
11. Do you have consulting arrangements, line management responsibilities, substantial equity holdings with the sponsor, subcontractor, or potential vendor?
12. Have you submitted an annual conflict of interest disclosure statement?
Yes N/A
13. If you have acquired new financial interests since your last disclosure, have you reported these to the institution?
14. For NIH proposals, do all investigators agree to comply with the NIH Public Access Policy? Please see the NIH Policy for details.
15. Is this an Individual NRSA (F-awards) Fellowship? If yes, complete the Individual Fellow and Faculty Mentor Certification for NIH F-awards Certification Individual Fellow and Faculty Mentor Certification for NIH F-awards.
16. Are you currently debarred or suspended from doing business with the federal government or excluded from Medicare or other federal/state health care programs, or are you currently in default on any federal student loans?
17. Have you engaged in lobbying activities using federal funds to influence any federal employee in connection with this proposal?
18. If funded, will other individuals be authorized to sign for purchases necessary for the project? If yes, name authorized individuals: _____
19. Is this proposal a collaborative inter-school/college program with sharing of indirect cost recovery? If yes, attach completed of Sharing of Indirect Cost Recovery form.
20. Does the project involve international partnerships or activities in foreign countries? Country name: _____
21. Will the work involve the transfer of technology and/or materials overseas?
22. Identify the CLASP-certified individual(s) who will have functional responsibility for oversight of this project, should it be funded. _____
(Signature or initials of this individual recommended)

PRINCIPAL INVESTIGATORS' CERTIFICATION

In signing below the Principal Investigator(s) (PIs) certify that the above is accurate and complete to the best of the PIs' knowledge. This certification must also include signatures of all investigators in Section A (page 3 of this form). The PI certifies the proposal (including any subsequent supplemental material) is compliant with sponsor requirements. In addition, the PI(s) understand that any false, fictitious, or fraudulent statements or claims made in the accompanying submission may subject the PI(s) personally to criminal, civil, or administrative penalties. The PI(s) agrees to accept responsibility for the scientific conduct of the project and to provide the required progress reports if a grant is awarded as a result of this application.

Principal Investigator(s): _____ Date: _____

REQUIRED SIGNATURES: (PLEASE SEE REVERSE FOR ADDITIONAL SIGNATURES WHICH MAY BE REQUIRED)

Dept Chair: _____ Date: _____ Cost Center Chief: _____ Date: _____
Director of Medical Center
Dean: _____ Date: _____ Space Planning: _____ Date: _____
(required for Medical Center if "Yes" has been checked on consideration 2 above)

DESCRIPTION OF PROPOSAL SIGN-OFF RESPONSIBILITIES

PRINCIPAL INVESTIGATOR/MULTIPLE PI: The PI/Multiple PI is the initiator and director of the proposed program. The PI's/Multiple's PIs' signature(s) indicates that he/she/they will adhere to University and sponsor policies affecting the project, including completion of an Employee Intellectual Property Agreement and conflict of interest disclosure, monitoring of expenditures and the submission of reports required by the sponsor and the University.

DEPARTMENT CHAIR, DIVISION/UNIT CHIEF: These signatures mean that agreement has been reached regarding the amount and type of departmental resources that will be required to assist a PI in completing a project. If new space, personnel, or renovations are required, further discussion with the appropriate Dean's office will be necessary. This signature also confirms receipt of the annual conflict of interest disclosure and, where required, the supplemental disclosure and certifies that review will be complete and conflicts resolved, if any, prior to award.

DEAN: The Dean's signature means that agreement has been reached regarding the amount of School/College resources required to support the program. The Dean ensures that appropriate salary and pooled costs are requested in the proposal. As well, the Dean participates in discussions of new space or renovations required to complete a project.

THIRD PARTY COST SHARING: A complete Pre-Award Third Party Cost Sharing is required at the time of proposal to indicate the Third Party's concurrence with their cost sharing responsibilities.

ADDITIONAL REVIEW AND/OR OTHER SIGNATURES WHICH MAY BE REQUIRED DEPENDING UPON THE NATURE OF THE RESEARCH:

RESOURCES OF OTHER DEPARTMENTS, UNITS OR OFFICES: Projects that require resources of other University departments or offices require approval of the appropriate signatory. At the Medical Center, examples include Blackboard Online Learning, Curricular Affairs/Office of Medical Education, etc.

VIVARIUM: All University projects using animals must be reviewed by the University Committee of Animal Resources (UCAR, x5-1693).

BIOHAZARDS: Projects which propose the use of potential biohazards, including recombinant DNA and carcinogens, must be reviewed by the Executive Secretary of the Biosafety Committee, 685 Mt Hope Ave., x5-3241. This signature is required to comply with federal and state regulations covering biohazards.

BIostatistics AND COMPUTATIONAL BIOLOGY SERVICES: Projects that involve biostatistics services must be approved by the Department of Biostatistics and Computational Biology, Saunders Research Bldg. Room 4106, x5-2407. This signature ensures that adequate costs and professional effort have been included to support biostatistical studies.

STRONG MEMORIAL HOSPITAL: Projects which involve facilities, services, or training programs of Strong Memorial Hospital require the signature of the Senior Director for Finance, Room 1-2412, Medical Center, x5-3300.

CLINICAL RESEARCH CENTER: Projects which will require resources or staff of the Clinical Research Center should be reviewed by the CTSI. Room 1.502, Saunders Research Building, x5-0674.

EXPLANATION OF THE ITEMS FROM FRONT (use additional sheets)

SECTION B: Prospective Reimbursement Analysis (PRA) (Note 1)

If Question 1 in the **ADMINISTRATIVE AND POLICY CONSIDERATIONS** section was answered “Yes”, please check one of the appropriate boxes below:

- The clinical research study’s clinical procedures constitute a clinical trial (i.e. there is an investigational drug, device or treatment). ***The PI has signed the following three (3) worksheets (copies are attached to this sign off form): PRA Template, Participant Grid/Billing Plan and Total Budget comparison worksheet (refer to Note 2 and Note 3).***
- The clinical research study’s clinical procedures constitute a clinical trial (i.e. there is an investigational drug, device or treatment) and the sponsor has indicated it will pay for all visits and procedures (i.e. nothing will be billed to third party insurance). ***The PI has signed the following two (2) worksheets (copies are attached to this sign off form): Participant Grid/Billing Plan and Total Budget comparison worksheet (refer to Note 3).***
- The clinical research study is not a clinical trial (i.e. there is not an investigational drug, device or treatment). ***The PI has signed the following two (2) worksheets (copies are attached to this sign off form): Participant Grid/Billing Plan and Total Budget comparison worksheet (refer to Note 3).***

PRINCIPAL INVESTIGATORS’ CERTIFICATION

In signing below the Principal Investigator(s) certify that he/she has completed the Blackboard clinical trial training (Course CT-01).

Principal Investigator(s) Name(s)

Date: _____

NOTE 1: The University of Rochester Clinical Research Standard Operating Procedures Regarding Financial Oversight and Billing Compliance defines a Prospective Reimbursement Analysis as “the process of determining and documenting what procedures, items and tests in a protocol are standard of care or strictly related to research. This information is then used to determine the appropriate payer of such activities” (SOP 1.1).

NOTE 2: The PRA Template is a questionnaire that assists with the determination whether a clinical trial is a “Qualifying trial” as per Centers for Medicare and Medicaid Services guidelines. The PRA Template is a worksheet within the UR’s Budgeting Workbook for clinical trials, accessible in the Clinical Trial Resources Share Point site (that is accessible through the link on this web page http://www.rochester.edu/ORPA/Clinical_Trial_Resources/index.html).

NOTE 3: The Participant Grid/Billing Plan is an EXCEL worksheet on which is documented the proper payer for each clinical procedure for each visit in a clinical research study plan. A Total Budget comparison worksheet allows comparison of the sponsor’s financial offer to the UR’s internally prepared budget and indicates whether a potential deficit or surplus exists. The Participant Grid/Billing Plan and the Total Budget comparison are worksheets within the UR’s Budgeting Workbook for clinical trials, accessible in the Clinical Trial Resources Share Point site (that is accessible through the link on this web page: http://www.rochester.edu/ORPA/Clinical_Trial_Resources/index.html).

**Pre-award
THIRD PARTY COST SHARING FORM (Faculty Outside UR)**

This form represents official approval of cost sharing (or in-kind support) proposed by a third-party source. Supporting documentation will be requested to verify the proposed cost sharing at the end of the project. Supporting documentation may include payroll registers, copies of requisitions, ledgers, purchase orders, invoices or other sources of documentation. **Please note that this form may be utilized at the proposal stage only, and will not suffice for expenditure documentation.**

A. Salary (complete if cost sharing is in the form of effort)

_____ certifies that during the period _____ to _____ it
(Type name of Institute/Organization)

agrees to cost share the salary and benefits (if applicable) for the following employees in support of the project listed below:

<u>Name</u>	<u>Title</u>	<u>Percent effort</u>	<u>Value of effort & benefits</u>
1. _____	_____	_____	_____
2. _____	_____	_____	_____
3. _____	_____	_____	_____

The effort is an integral and necessary part of the project. The time and effort will not be charged to the respective project and will otherwise be paid from qualifying non-federal sources.

B. Other costs (complete if other forms of cost sharing are proposed).

_____ certifies that during the period _____ to _____ it
(Type name of Institute/Organization)

agrees to cost share the following expenditures in support of the project listed below:

<u>Description</u>	<u>Amount</u>
1. _____	_____
2. _____	_____
3. _____	_____

The expenditures are necessary and reasonable for the accomplishment of the project and will not be charged to the respective program and will otherwise be charged to qualifying and non-federal sources.

Signature of Institutional/Organizational Official
