#### **Jason Farley, PhD, MPH, ANP-BC, FAAN, AACRN:**

Dr. Jason Farley is an Associate Professor at Johns Hopkins University School of Nursing and a nurse practitioner in the Division of Infectious Diseases within The Johns Hopkins AIDS Service. He holds adjunct faculty appointments at both The University KwaZulu-Natal in Durban, South Africa and The University of Technology in Sydney, Australia. Dr. Farley's research seeks to optimize the prevention and management of HIV infection with a particular emphasis on drug resistance Tuberculosis among persons with HIV in international settings. His work is supported through NIH, CDC-SA, HRSA, Global Fund for AIDS, TB and Malaria as well as many others. Through coordination and capacity development of an international team, Dr. Farley has led the development and scale-up of a program to enhance diagnosis, linkage and retention in care for patients with drug-resistant TB/HIV co-infection. This includes the development of a smartphone application, known as miLINC. In the US, he is a leader in pre-exposure prophylaxis working with the Baltimore City Health Department to implement a city-wide initiative to increase access and retention of PrEP services in men who have sex with men. Through this effort, Dr. Farley has led the development of a smartphone application, known as PrEPme, which will be implemented across Maryland. He is the Johns Hopkins HIV Prevention Trials Network site leader within the School of Medicine and the Founder of the REACH Institute of Johns Hopkins University School of Nursing. He is the currently the President of the Association of Nurses in AIDS Care (ANAC), the world's largest HIV focused nursing organization.
