

Special Guest Speaker

Sarit Golub, PhD, MPH

Professor of Psychology at the
City University of New York, Hunter College
HIV/AIDS Research Team (HART)

“The Promise and Pitfalls of Biomedical Prevention”

**Tuesday, October 13, 2015
Helen Wood Hall Auditorium
3:00 – 3:50 PM**

Dr. Sarit Golub is Professor of Psychology at Hunter College and the CUNY Graduate Center, where she is the Chair/Area Head of the Basic and Applied Social Psychology PhD program. She received her MPH from Columbia University and her PhD in Social Psychology from Harvard. Dr. Golub directs the Hunter HIV/AIDS Research Team (HART), and is PI of three NIH-funded R01s, including a PrEP demonstration-implementation project being conducted in collaboration with Callen-Lorde Community Health Center (NYC) and a study focusing on identifying key structural, behavioral, and social dynamics related to implementation of long-acting injectable PrEP formulations. Dr. Golub’s work applies findings across disciplines (including social psychology, neuropsychology, behavioral economics and decision sciences) to inform new approaches to HIV prevention and care. She collaborates with CBOs throughout New York to translate study findings into prevention and care for vulnerable populations.

***A Reception/Mixer will follow Dr. Golub’s talk at
4:00pm in Evarts Lounge with food, beverages, and live
music; please RSVP if you plan to attend the Mixer:***
