Parent Questionnaire for New Patients

The attached questionnaire gives you a chance to tell us about your child. We want to know about your concerns and worries so that we can try to help. Knowing about things like your child's health, past experiences, and family history can help us help your child.

The questionnaire should be completed by the person who takes care of the child most of the time. There is no right or wrong answer. Answer each question to the best of your ability. If you do not know the answer, make notes of what you do know.

We need this form before we can schedule your child's appointment. It will be reviewed by staff at Developmental and Behavioral Pediatrics who will be involved in your child's care. When you talk with our intake team, please ask any questions you have while trying to complete these forms. Please also let us know about problems that were not covered on the forms.

If you have questions about this form or have difficulty filling it out, please call our intake coordinators at **(585) 275-2986**.

All information is kept strictly confidential.

Once you have completed this form, please send it to:
