PUBLIC HEALTH GRAND ROUNDS

Linking Research to Community Health Improvement

Jointly sponsored by the Department of Public Health Sciences & URMC Center for Community Health

“Partnering with Communities in Systems and Data Sciences to Advance Mental Health and Wellness in Real and Virtual Worlds”

Ann Marie White, Ed.D.
Associate Professor of Psychiatry and
Director of the Office of Mental Health Promotion

Community-building public health initiatives that reinforce prosocial ties can reduce observable risks for violence and suicide as well as strengthen quality of life and wellness, broadly. Massive amounts of social media use, in combination with big data analytic tools for sensing, are untapped resources for such community goals. This grand rounds will present the utility of systems science and data science methods (e.g., to sense health risks and protective factors also found in social media), in the context of academic-community partnerships seeking to support communities' own sources of health and healing.

Friday, March 18, 2016
Location Change: URMC room 2-6424 Whipple Auditorium
12:00 pm – 1:00 pm

Assorted wraps will be available while supplies last. Bring your own beverage.

ASL interpreters or other accommodations are available upon request.
Contact Jennifer VanRy @ 224-2061 with requests and/or questions

This seminar series is funded in part by Cooperative Agreement #5U36CD319276CFDA93.283 which is shared by the American Association for Medical Colleges and the Centers for Disease Control and Prevention

Live webcasting, archiving, ASL interpretation and closed captioning supported by HRSA grant 15-143, supporting the UR General Preventive Medicine and Public Health Residency. Please find live and archived sessions at https://www.urmc.rochester.edu/community-health/education/grand-rounds.aspx
