

PUBLIC HEALTH GRAND ROUNDS

Linking Research to Community Health Improvement

Jointly sponsored by the Department of Public Health Sciences & Center for Community Health

Advancing Interprofessionalism and Caring for the Most Complex Patients- The Student Hotspotting Initiative

Stephanie Nothelle, MD

Post-Doctoral Fellow

Johns Hopkins University School of Medicine
Division of Geriatric Medicine and Gerontology

Friday, May 5, 2017
Helen Wood Hall Auditorium
12:00 pm – 1:00 pm

Just 5% of Americans are estimated to account for almost 50% of healthcare spending. These patients need a comprehensive team of health care providers who are willing and able to get to know them as people and work in a collaborative manner. The Student Hotspotting Initiative, sponsored by Primary Care Progress, Camden Coalition, and the Association of American Medical Colleges is preparing the next generation of health care professionals to help care for these complex patients. Students learn about team work and patient centered care by working in inter-professional teams around the care of complex patients in their own community.

Assorted wraps will be available while supplies last. Bring your own beverage.

ASL interpreters or other accommodations are available upon request.

Contact Jennifer VanRy @ Jennifer_vanry@urmc.rochester.edu or 224-2061 with requests and/or questions

This seminar series is funded in part by Cooperative Agreement #5U36CD319276CFDA93.283 which is shared by the American Association for Medical Colleges and the Centers for Disease Control and Prevention
