

# PUBLIC HEALTH GRAND ROUNDS

*Linking Research to Community Health Improvement*

Jointly organized by the Department of Public Health Sciences, and

Center for Community Health & Prevention with additional funding from the UR Clinical and Translational Science Institute

## Making the Most of a Global Pandemic

### **Michael Mendoza, MD, MPH, MS, FAAFP**

*Commissioner of Public Health, Monroe County Health Department;  
Professor of Clinical Family Medicine, Public Health Sciences, and Nursing, URM*

**Friday, December 3, 2021**

**12:00pm – 1:00pm**

**Zoom Webinar**

We have endured two years of a global pandemic, and it's not over yet. The community has come together in unprecedented ways to combat COVID-19, and all the while the everyday work of public health has continued. As we look beyond this pandemic, what have we learned so far? How can we ensure that we remain prepared -- or become better prepared -- for future public health emergencies without sacrificing the important work of "routine" public health? Where do we go from here?

**Pre-registration for this session is required using the link below:**
