

PUBLIC HEALTH GRAND ROUNDS

Linking Research to Community Health Improvement

This session is presented in collaboration with the Department of Public Health Sciences and Center for Community Health & Prevention, with additional funding from the UR Clinical and Translational Science Institute

How population-level matched birth-school administrative records can address public health and education policy questions

David Figlio, PhD

Provost, University of Rochester

Friday, February 3, 2023

12:00pm – 1:00pm

Zoom Webinar

This presentation highlights the recent scholarship of David Figlio, who introduced matched birth-school data to the field of economics to address public health and education policy questions. Figlio will present a survey of his research on early health and later educational outcomes, as well as the use of sibling comparisons (facilitated by matched birth records) to study the policy-relevant issues in education.

Pre-registration for this session is required using the link below:
