## Critical Care Nursing Symposium

**Purpose:**
The Critical Care Nursing Symposium will enable the learner to gather practical and evidence-based knowledge through the educational sessions on the topics below:

- **AACN Theme:** “Guided by Why”
- **Managing Respiratory Compromise**
- **12-lead EKG Case Studies**
- **Navigating Social Media in Healthcare**
- **Nursing Ethics Huddles**
- **Sepsis Update: Impact on Patient Care**

**Target Audience:**
The Critical Care Nursing Symposium’s intended audience includes nurses who care for acute or critically ill patients in community and teaching hospitals. Nursing students who are interested in critical care or progressive care after graduation are also targeted.

**Contact Hours:**
This activity will provide 6.50 contact hours

**Learning Objectives:**
- Discuss the importance of reconnecting with WHY and describe how an individual can use WHY as a tool to create a better future for health care.
- Discuss changes in EKG as they correlate to various acute & chronic disease processes using a case study approach.
- Describe the purpose & design of Nursing Ethics Huddles and their impact on preventing or dealing with nurse’s moral distress.
- Identify patients at risk for respiratory compromise and discuss use of capnography as a management strategy.
- Describe the ethical challenges between social media and privacy compliance in healthcare and identify professional boundaries for healthcare providers.
- Examine the new sepsis guideline and it’s impact on patient care.

**Exhibits:**
- Learner will review newest medical technology and pharmaceuticals that may assist critical care nurses in providing better care and improved outcomes for critically ill patients.
