Informed Consent Process
Observation – Competency Guidance

- Ever wonder how effective your technique is in obtaining informed consent?
- How can you, as a research manager, know your coordinator is competent at obtaining informed consent?
- Let’s keep raising the bar in research competency with this tool.

Nancy A. Needler
CSTI Research Coordinator
Program Manager

The Electronic Health Record and Its Use for Research

- How do you use the electronic health record for research activities?
- Are there any barriers you encounter in your tasks for study coordination?
- What would be on your wish list to make your tasks easier when working with the electronic health record?

David Pinto
Clinical Research Informaticist and Coordinator of the EHR Cluster, CSTI Informatics Core

To request accommodations (For example: ASL Interpreters) for this event, email SCORE by 9am, Monday, June 18th.

Please come to the last SCORE event this year before Nancy Needler’s retirement.
