EASTMAN  
INSTITUTE FOR ORAL HEALTH

Contemporary Implant,  
Restorative and Esthetic Dentistry

A Participation Program | Rochester, NY

January 26-27, February 9-10, March 9-10 and April 27-28, 2018

Hans Malmström,  
DDS, Course Director

Georgios Romanos,  
DDS, PhD

George Tysowsky,  
DDS, MPH

Mario Romero, DDS

Dipesh Parmar, BDS

Nasser Barghi, DDS

EASTMAN  
INSTITUTE FOR ORAL HEALTH

## Implants and Grafts

**January 26-27, 2018**  
Friday, 1:00 pm - 9:00 pm  
Saturday, 9:00 am - 5:00 pm

### Achieving Long-Term Success in Implant Dentistry Through the Management of Soft and Hard Tissue Complications

#### Lecture and Lab Exercise

**Dr. Georgios Romanos** is Professor of Periodontology, Director of Laser Education, and founder of the Laboratory for Periodontal, Implant, and Phototherapy (LA-PIP) at the Stony Brook University School of Dental

Medicine and Tenured Professor (Prof. Dr. med. dent.) for Oral Surgery/Implant Dentistry in Frankfurt/Germany. Previously, he was Associate Dean for Clinical Affairs at Stony Brook University (2012-2014), Professor for Clinical Dentistry at the University of Rochester (2007-2012), and Professor and Director of Laser Sciences at NYU (2004-2007). Dr. Romanos is a Diplomate of the American Board of Periodontology, a specialist in Periodontics, Prosthodontics, Oral Surgery, and Implant Dentistry in Germany. He is a Fellow of the American Association for Dental Research, the Academy of Osseointegration, the **International**. College of Dentists, ICOI, ITI Foundation, the American Society for Laser Medicine and Surgery, and the International Academy for Dental Facial Esthetics. He is on the editorial boards of various peer-reviewed journals, has over 350 publications, has written four books, and has given over 500 presentations in more than 50 countries. In addition, Dr. Romanos is the recipient of the 2016 T.H. Maiman Award for Laser Research from the Academy of Laser Dentistry.

#### Course Content

- Correct selection of grafting materials for bone augmentation
- Grafting methods for soft tissue augmentation around implants
- Concepts of implant therapy to improve crestal soft and hard tissue stability
- Esthetic considerations for long term success in the esthetic zone

## New Techniques: Bridges, Crowns, Fiber Posts, Bleaching and more

**February 9-10, 2018**  
Friday, 1:00 pm - 9:00 pm  
Saturday, 9:00 am - 5:00 pm

### Fiber-Reinforced Bridges, Bleaching: In-office, Home or OTC. Update on Adhesive Dentistry and Future of Porcelain Materials, Best Techniques for Cementation of Crowns, Veneers and Fiber Posts

#### Lecture, Lab Exercise and Patient Care

**Dr. George Tysowsky** is Clinical Assistant Professor at SUNY Buffalo and Sr. Vice President of Technology for Ivoclar Vivadent, Inc., where he is responsible for research and development activities for North American Operations.

#### Course Content

- What is new in tooth colored restoratives?
- Best techniques for crown and veneer cementation
- Fiber posts: materials and techniques

**Dr. Hans Malmström**, Chair Division of General Dentistry and Director of the AEGD Residency Program at the University of Rochester Eastman Institute for Oral Health, Rochester, NY.

He is Professor and Director of Continuing Dental Education at Eastman Institute for Oral Health and Coordinator of the Esthetic Dentistry Unit. He has written numerous scientific articles and conducted clinical research studies.

#### Course Content

- Treatment planning
- New trends and developments in composite and adhesive technology
- Techniques for fabricating fiber-reinforced bridges (hands-on exercise and patient care)
- Update on bleaching: clinical demonstration, and patient care
- Lecture, patient demonstration and lab exercise

## Advanced Direct Restorative Procedures. Biomaterials and Techniques

**March 9-10, 2018**  
Friday, 1:00 pm - 9:00 pm  
Saturday, 9:00 am - 5:00 pm

### Advanced Direct Restorative Procedures. Biomaterials and Techniques

#### Lecture and Lab Exercise

**Friday, March 9, 2018**  
**Dr. Mario Romero** is an Assistant Professor in the Department of Restorative Sciences at The Dental College of Georgia at Augusta University.

Dr. Romero received his DDS from the University of Guayaquil (Ecuador) and completed the two year AEGD Program at the University of Rochester. He has over 30 publications in national and international peer reviewed journals and has lectured extensively on topics related to direct and indirect restorative dentistry. He maintained a private practice with emphasis on Restorative and Esthetic Dentistry for 15 years prior to joining AU in 2013.

#### Course Content

- Posterior composites (**different bonding protocols and SRDC restoration technique**)
- Management of large Class II composites
- Materials and instrument selection (shade mapping & techniques for highly esthetic anterior composite restorations)

**Saturday, March 10, 2018**  
**Dr. Dipesh Parmar** works at Acorn Dental with a focus on aesthetic minimally-invasive dentistry. Dipesh Parmar graduated from the University of Birmingham (UK) winning

numerous prizes, and now works at Acorn Dental in England. He has held a clinical lecturer teaching post at Birmingham Dental School and has won multiple awards at the UK Aesthetic Dentistry Awards. He lectures internationally on aesthetic resin techniques, minimally invasive smile enhancement techniques and makeovers.

#### Course Content

- Mastering Anterior Restorations: treatment planning, anterior isolation techniques, basic and advanced resin layering techniques, recreation of mamelons, craze lines, internal characterizations and incisal halos.
- Material science and selection to emulate enamel translucency and dentin opacity
- Clinical step-by-step cases illustrating the management of: Class IIIs; Class IVs; Class Vs Direct resin veneers and Peg Laterals

## Porcelain Veneers

**April 27-28, 2018**  
Friday 9:00 am - 5:00 pm  
Saturday, 9:00 am - 5:00 pm

### Everything You Need to Know About Porcelain Veneers, Crowns and Color

#### Lecture, Lab Exercise and Patient Demo on Porcelain Veneers from Start to Finish

**Dr. Nasser Barghi** is a Professor in the Department of Comprehensive Dentistry at the University of Texas Health Science Center at San Antonio Dental School, in San Antonio, Texas.

He received his Post-Doctoral Certificate in Prosthodontics from Temple University, has presented more than 1000 didactic and hands-on clinic courses in over 35 countries and is the author and co-author of numerous articles and abstracts. Dr. Barghi has completed a great amount of research on new esthetic bonding materials and etched porcelain bonded restorations. Dr. Barghi is a member of the American Academy of Esthetic Dentistry, the American Academy of Fixed Prosthodontics, the International Association for Dental Research and is Past President of the American Equilibration Society.

#### Course Content

- Diagnosis, treatment planning, and preparation for porcelain veneers, crowns, onlays and inlays
- Predictably selecting tooth shade
- Using composites and cements to enhance porcelain veneer esthetics
- Color modification of porcelain veneers and crowns
- Practical information on indications, laboratory communication and bonding of current types of all-ceramic restorations
- Innovations in digital dentistry and high-strength all-ceramic systems in conjunction with advanced CAD/CAM technology
- Live patient demonstration - planning, preparation and placement of porcelain veneers

## Educational Objectives for Esthetic Conference

### Upon completion of this course, the participants will have:

- Enhanced knowledge and clinical skills in soft and hard tissue grafting techniques.
- An in-depth understanding of adhesive dentistry, techniques, and materials for esthetic restorations.
- Improved skills in fabricating and placing esthetic restorations.

## Save the date for the May 18, 2018

### 23rd Annual Handelmann Conference

### Periodontal & Restorative Management of Implants Placed Into Extraction Sockets In The Esthetic Zone

8:00 a.m. - 5:00 p.m.  
Double Tree Rochester

#### Featuring Stephen J. Chu, DMD, MSD, CDT

*Adjunct Clinical Professor in the Ashman Department of Periodontology and Implant Dentistry and the Department of Prosthodontics at New York University College of Dentistry.*

Stephen J. Chu maintains an academic appointment as Adjunct Clinical Professor in the Ashman Department of Periodontology and Implant Dentistry and the Department of Prosthodontics at New York University College of Dentistry. He also has a private practice in Fixed Prosthodontics, Aesthetic, and Implant Dentistry in New York City. Dr. Chu has published over 50 articles in the dental literature and has given lectures nationally and internationally on the subjects of esthetic, restorative, and implant dentistry. Dr. Chu is on the editorial review board of several peer-reviewed dental journals. He is the recipient of the Peter Schärer Distinguished Lecturer Award from the European Academy of Esthetic Dentistry, the Lloyd L. Miller Distinguished Lecturer and the E. B. Clark Award from the Society for Color and Appearance in Dentistry.

### Immediate Tooth Replacement Therapy with Multiple Implants, Teeth, and Pontics in the Esthetic Zone

Current trends in implant therapy advocate clinical techniques that promote treatment efficiency consisting of condensed clinical procedures, fewer patient appointments, and shortened overall treatment time. Even though there is overwhelming literature to support positive outcomes in regard to implant survival through immediate implant therapy and tooth replacement strategies, esthetic questions still loom, specifically, how to handle multiple tooth sites in the esthetic zone. This presentation will address treatment planning strategies with multiple tooth sites incorporating teeth, immediate implants with tooth replacement, and pontics in the esthetic zone as well as innovative devices and strategies used in provisional restoration fabrication.

#### Synopsis

Implant dentistry is continuously evolving, offering new and more predictable forms of therapy with minimally invasive protocols. Innovative techniques now allow for better esthetics, decreased treatment time, and greater patient comfort. However, these new techniques and therapies continue to raise questions and concerns regarding the risks and rewards of each, specifically, controversial issues regarding immediate extraction socket implant placement in relationship to survival and esthetic outcomes. Immediate provisional restoration of implants placed into anterior sites will be presented. This lecture will address current concepts in the treatment of Type 1, 2, and 3 sockets, techniques, clinical research, histologic evidence, and innovations in immediate implant placement and provisional restoration fabrication, and how they can enhance treatment procedures, reduce time, and improve clinical outcomes for greater patient comfort, care, and satisfaction.

#### Learning Objectives

After this presentation, the attendee should be able to understand the following concepts associated with immediate implant placement and provisional restoration:

1. The treatment time and survival rates associated with immediate protocols
2. The prosthetic and biologic impact on hard tissue buccal contour change and peri-implant soft tissue thickness
3. Prothodontic innovations in provisional restoration fabrication
4. Management of implants placed into extraction sockets that have dehiscence defects

## Conference Overview

This Advanced Clinical Esthetic Dentistry Program is designed to provide participating dentists with a combined didactic, laboratory, and live clinical experience in selected cosmetic areas. Practitioners will have the opportunity to use a variety of different materials and techniques in a mentored environment.

The topics covered include anterior composite restorations, posterior composite restorations, indirect composite restorations, fiber reinforced bridges, temporization, home and in-office tooth bleaching, bonding, polishing, color, porcelain veneers, and crowns. After the lectures and laboratory experiences, the participants may, in some sessions, advance to the clinic where they will treat patients under the guidance of the program faculty.

## Sponsors

The program is co-sponsored by the General Dentistry Program and Esthetic Dentistry Unit at the Eastman Institute for Oral Health/Eastman Dental and the Upstate New York Affiliate of The American Academy of Cosmetic Dentistry.

## Schedule of events

The Clinical Esthetic Dentistry Program will convene on four Fridays and Saturdays as follows:

January 26-27, 2018  
February 9-10, 2018  
March 9-10, 2018  
April 27-28, 2018

## Location

Eastman Institute for Oral Health  
Eastman Dental  
625 Elmwood Avenue  
Rochester, NY 14620-2989

## To Register

Mail in registration for the Esthetic Conference is due by January 18, 2018

## Hotel Reservations

### Double Tree of Rochester

1111 Jefferson Road  
Rochester, NY 14623  
585-475-1510

### Hilton Garden Inn College Town

30 Celebration Drive  
Rochester, NY 14620  
585-424-4404

*Mention this program when booking*

## Cancellation

Tuition will be refunded after a \$25 cancellation charge

## About the Program

The program will provide participating dentists with a thorough, hands-on understanding of specific treatment-centered areas. It is geared to train the practitioner in the evaluation of comparative materials and techniques. After completing this program, the participants should be able to immediately practice the new skills on their own. Brief, fast-paced, treatment-oriented lectures by leading clinicians introduce each subject area with a description of the clinical procedures and available materials. The participants then have the opportunity to practice the specific techniques in a lab setting. Interested participants may then move to the clinical setting, where patients are treated with over-the-shoulder assistance from the instructors. Since esthetic dental materials and techniques are in a constant state of evolution, training will not be limited to a single system or product.

**straumann®**

**COSVEDENT™**  
*Spreading Smiles®*

**COLTENE**

**HENRY SCHEIN®**  
DENTAL

## Tuition

### Payment options for participants enrolled in all 4 sessions:

- **\$2,695** (full payment by check or credit card for all four sessions)
- **\$675** per each session (only if registered for all 4 sessions)
- **\$300** deposit before January 8, 2018 and the balance **\$600** due before each session starts
- **Extended Credit Card Plan:** a deposit of \$700 due at the time of registration and three monthly payments of \$665 which will be automatically charged to the account at the beginning of Jan., Feb., March 2018.

### Payment options for participants enrolled in 1, 2 or 3 sessions:

- Per session: **\$995** (Session 1 - 4)
- **\$300** deposit and the balance **(\$695)** due before the session starts

## Corporate Grants

This program was funded in part by unrestricted educational grants from the following dental corporations:

## Course CE credits – 72 (18 credits per weekend)

Eastman Institute for Oral Health has been designated as an approved sponsor by the New York State constituent of the Academy of General Dentistry and the ADA. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Eastman Institute for Oral Health designates the eight days for 72 hours of continuing dental education credits.
