Anterior Implant Esthetics: The Perio-Ortho-Restorative Connection

Course Synopsis

Attempting to achieve anterior implant esthetics is a challenging, demanding, and humbling experience. To create implant restorations with harmonious gingival contour that emulates nature is a science and art. Understanding the biologic and physiologic limitations of the soft and hard tissues will facilitate predictability.

This course is designed for Periodontists, Restorative Dentists, Prosthodontists, Oral Maxillofacial Surgeons, Implantologists and lab technicians. It will focus on current implant treatment philosophies and methodologies for replacing missing teeth, and the management of patients who will be losing a tooth or teeth in the esthetic zone. It will also chronicle the presenter’s 22 years of experience in anterior implant esthetics.

Emphasis will be placed on diagnosis and treatment planning, and surgical, prosthetic and orthodontic management of soft and hard tissue for optimal anterior implant esthetics in simple and complex esthetic situations.

About our speaker

Dr. Joseph Kan DDS, MS

Dr. Kan completed Prosthodontic and Implant Dentistry Programs at Loma Linda University School of Dentistry. He is a Professor of Dentistry and maintains a private practice limited to Prosthodontics and Implant Dentistry. He is on the Editorial Board of The International Journal of Periodontics and Restorative Dentistry, and The European Journal of Esthetic Dentistry.

Dr. Kan’s honors include the Best Research Award from the Academy of Osseointegration in 1997, the Judson Hinckley Award from the Journal of Prosthetic Dentistry in 2003, and the Robert James Implant Achievement Award in 2005.

Besides lecturing nationally and internationally, he has published over 70 articles in refereed journals, and chapters in textbooks with emphasis on periodontal tissue management, immediate tooth replacement, and treatment planning in implant esthetics.

About the Handelman Conference

The conference was established to pay tribute to Dr. Stanley L. Handelman and his success as an educator, researcher, mentor and friend. Dr. Handelman’s career at the University of Rochester Eastman Institute for Oral Health spanned nearly 50 years. The Institute’s General Dentistry Residency Program has become preeminent among its contemporaries. It serves as a model for the development of accreditation standards for advanced education programs in General Dentistry. Dr. Handelman has been described as the ‘father of postdoctoral general dentistry education’ and a fund has been established in his honor.

24th Annual Handelman Conference

Creating Implant Restorations, Implant Treatment Philosophies and Methodologies

FEATURING

Dr. Joseph Kan DDS, MS

Professor in the Advanced Education Program in Implant Dentistry at Loma Linda University. Dr. Kan is the author of some of the most cited publications in Implant Dentistry.

Friday, May 10, 2019

8:00 am. – 5:00 pm.

Rochester Institute Of Technology Inn & Conference Center
5257 W Henrietta Rd
Henrietta, NY 14467
Long-term case follow-up; (5, 10, 15, 20 years) - Management of interdisciplinary cases (using Ortho, Perio & Prosthodontics)

- Prognostic keys for predictable esthetic implant treatment
- Bone and soft tissue grafting concepts
- Papilla management: implants vs. natural teeth
- Management of surgical and prosthetic complications
- Profile (pink prosthetic gingiva) prosthetic concepts
- Management of interdisciplinary cases (using Ortho, Perio & Prosthodontics)
- Long-term case follow-up; (5, 10, 15, 20 years)
- Provisionalization (contours for optimal gingival esthetics)

Economic Objectives

After this presentation, the attendee should be able to understand the following concepts associated with immediate implant placement and provisional restoration:

- Prognostic keys for predictable esthetic implant treatment
- Bone and soft tissue grafting concepts
- Papilla management: implants vs. natural teeth
- Management of surgical and prosthetic complications
- Profile (pink prosthetic gingiva) prosthetic concepts
- Management of interdisciplinary cases (using Ortho, Perio & Prosthodontics)
- Long-term case follow-up; (5, 10, 15, 20 years)
- Provisionalization (contours for optimal gingival esthetics)

Our Agenda

8:00 – 8:30 am  Registration and Continental Breakfast
8:30 – 8:45 am  Opening Remarks/Welcome
Hans Mahlstrom, DDS
Professor and Chair, General Dentistry
AECD Program Director
El Elaz, DMD, MSc, PhD
Professor and Director, Eastman Institute for Oral Health, Vice Dean for Oral Health, University of Rochester Medical Center

8:45 – 10:30 am  Prognostic Keys for Predictable Esthetic Implant Treatment, Bone and Soft Tissue Grafting Concepts, Papilla Management: Implants vs. Natural Teeth
10:30 – 10:50 am  Break/Vendor Session
10:50 – 11:45 am  Management of Surgical and Prosthetic Complications
11:45 am – 12:00 pm  Alumni Recognition
12:00 – 1:15 pm  Lunch/Vendor Session
1:15 – 2:30 pm  Profile (Pink Prosthetic Gingiva) Prosthetic Concepts, Management of Interdisciplinary Cases (Using Ortho, Perio & Prosthodontics)
2:30 – 2:45 pm  Break/Vendors
2:45 – 4:15 pm  Long-term Case Follow-up; (5, 10, 15, 20 Years) Provisionalization (Continue for Optimal Gingival Esthetics)
4:15 – 4:30 pm  Questions and Answers
