About our speaker

Dr. Gordon J. Christensen, DDS, MSD, PhD

Dr. Gordon is a co-founder of the non-profit CLINICIANS REPORT FOUNDATION (previously named CRA). Since 1976, he has conducted research in all areas of dentistry and published the findings to the profession in the well-known CRA Newsletter now called CLINICIANS REPORT.

Dr. Gordon's degrees include DDS, University of Southern California; MSD, University of Washington; Ph.D., University of Denver; and two honorary doctorates.

Currently, he is an Adjunct Professor at the University of Utah, School of Dentistry. Gordon has presented thousands of hours of continuing education globally, made hundreds of educational videos used worldwide, and is published widely.

About the Handelman Conference

The conference was established to pay tribute to Dr. Stanley L. Handelman and his success as an educator, researcher, mentor, and friend. Dr. Handelman's career at the University of Rochester Eastman Institute for Oral Health spanned nearly 50 years. The Institute's General Dentistry Residency Program has become preeminent among its contemporaries. It serves as a model for the development of accreditation standards for advanced education programs in General Dentistry. Dr. Handelman has been described as the 'father of postdoctoral general dentistry education' and a fund has been established in his honor.

THE CHRISTENSEN BOTTOM LINE – 2022

Behavioral Objectives

On the completion of this course, attendees should be able to, on the following topics:

State of the Profession, CAD/CAM; Endodontics, Esthetic's Dentistry, Implant Dentistry, Infection Control, Lasers, Oral and Maxillofacial Radiology; Orthodontics, Periodontics

1. List the most important and useful new techniques presented in this course.
2. List the most important and useful materials discussed in this course.
3. List the most important and useful new concepts discussed in this course.
4. Implement those aspects of the course most applicable to your practice.

The Christensen Bottom Line – 2022

Dr. Gordon J. Christensen, DDS , MSD, PhD

Educational Objectives

The participants will have an increased knowledge and understanding regarding the state of Profession, materials to be used and techniques in Esthetic dentistry, implant dentistry, CAD/CAM, Endodontics, infection control, Lasers, Oral and Maxillofacial Radiology, Orthodontics and Periodontics.

The hottest aspects in the following topics will be included in the program, time spent on each depending on the interests of the participants, the popularity of topics at the time, and the time available.

The course encourages audience participation, and questions and answers are presented in an enjoyable and humorous manner.
