Current trends in implant therapy advocate clinical techniques that promote treatment efficiency consisting of condensed clinical procedures, fewer patient appointments, and shortened overall treatment time. Even though there is overwhelming literature to support positive outcomes in regard to implant survival through immediate implant therapy and tooth replacement strategies, esthetic questions still loom, specifically, how to handle multiple tooth sites in the esthetic zone. This presentation will address treatment planning strategies with multiple tooth sites incorporating teeth, immediate implants with tooth replacement, and pontics in the esthetic zone as well as innovative devices and strategies used in provisional restoration fabrication.

Synopsis:
The seminar will be a discussion of immediate placement and provisionalization as related to:

- Innovative techniques for better esthetics
- Condensed clinical procedures
- Decreased treatment time
- Fewer patient appointments
- Clinical research and histologic evidence
- Discussion of Controversial topics such as:
  - Immediate implant placement in the anterior area
  - Immediate provisional restoration of anterior implants
  - Survival and esthetic outcomes

Learning Objectives:
After the presentation the attendee should be able to understand the following concepts:

- The treatment times and survival rates associated with immediate protocols
- The prosthetic and biological impact on hard tissue buccal contour change and peri-implant soft tissue thickness
- Prosthodontic innovations in provisional restoration fabrication
- Management of implants placed in extraction sockets that have dehiscence defects

ABOUT THE SPEAKER
Stephen J. Chu, DMD, MSD, CDT
Adjunct Clinical Professor in the Ashman Department of Periodontology and Implant Dentistry, and the Department of Prosthodontics, New York University College of Dentistry

In addition to his academic appointments, Dr. Chu maintains a private practice in Fixed Prosthodontics, Aesthetic and Implant Dentistry in New York City. He has published extensively, lectured throughout the world, is on the editorial review boards of several peer-reviewed dental journals, and is the recipient of the Peter Scharer Distinguished Lecturer Award from the European Academy of Esthetic Dentistry. He is also the Loyd L. Miller Distinguished Lecturer and the recipient of the E.B Clark Award from the Society for Color and Appearance in Dentistry.

ABOUT THE HANDELMAN CONFERENCE
The conference was established to pay tribute to Dr. Stanley L. Handelman and his success as an educator, researcher, mentor and friend. Dr. Handelman’s career at the University of Rochester Eastman Institute for Oral Health spanned nearly 50 years. The Institute’s General Dentistry Residency Program has become preeminent among its contemporaries. It serves as a model for the development of accreditation standards for advanced educational programs in general dentistry. Dr. Handelman has been described as the “father of postdoctoral general dentistry education” and a fund has been established in his honor.
Conference Date and Location
Friday, May 18, 2018, 8:00 a.m. - 5:00 p.m.
Double Tree Rochester
1111 Jefferson Rd., Rochester, NY 14623

Registration Fee
(includes breaks and lunch)
Dentist $345
EIOH Alumni $295
Auxiliary $170
Resident/Student $90

Please Mail or Fax Your Registration by April 22nd
Cancellation: Tuition will be refunded until April 29th with a $25 cancellation charge.

Course Credits
Continuing Dental Education Credits: 8

ADA CERP® Continuing Education Recognition Program
Eastman Institute for Oral Health has been designated as an approved sponsor by the New York State constituent of the Academy of General Dentistry and the ADA. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.
