

# COMMUNITY DENTISTRY DEPARTMENT

1.

## SCHEIN – APEX LOCATOR

Only 1 available at the Downtown clinic - need additional units to meet the demand for endo treatment  
The Apex ID allows clinicians to accurately and conveniently determine the working length of a root canal for the best treatment possible.

**\$650 (2 Needed)**

PATIENT CARE

2.

## GE MEDICAL - V 100 BP MASIMO-309287

The CARESCAPE V100 monitor is a reliable, easy-to-use vital signs monitor that helps you care for many patients efficiently. Its speed, accuracy and mobility allow you to collect the right information at the point of care, and present it wherever it is needed, so you can make fast, quality care decisions. It is designed for use on adult, pediatric and even neonatal patients who have very low perfusion pressures.

**\$3,000 (2 Needed)**

PATIENT CARE

3.

## COMMUNITY HEALTH VAN

Van to use for community events to transport staff and supplies – currently using staff vehicles, which are not large enough to transport table, banner and tent along with all of the supplies to participate in health fairs and other Community events promoting our services.

**\$35,000**

EQUIPMENT

4.

## ACCUTRON – NEWPORT DIGITAL NITROUS SYSTEM

As a complete and self-contained N<sub>2</sub>O-O<sub>2</sub> delivery system, the portable can be moved from one operatory to another. The unit is comprised of a flowmeter, an "E" yoke manifold with pressure regulators and gauges, a mobile stand, a scavenging system, corrugated tubing and a reservoir bag. These, plus gas cylinders and the operatory vacuum system, are all of the components needed to administer nitrous oxide-oxygen analgesia. In the portable system two or four compressed-gas cylinders are attached to "E" yokes, which are connected to pressure regulators. The regulators provide nitrous oxide and oxygen at the proper pressure to the flowmeter. Mobility is the major advantage of the portable unit.

**\$6,999**

PATIENT CARE

5.

## GENDEX X-RAY SENSOR

Replacement of existing Phosphor plates, in line with EIOH's move from Phosphur to sensor Digital Intraoral Sensors and Eliminate the need for conventional film and chemicals while reducing radiation dose.

**\$6,700 (2 Needed)**

PATIENT CARE

6.

## SCHEIN – DIGITAL IMPRESSION SCANNER

New scanner will provide higher quality impressions for dentures and crowns, resulting in decreased redundancy taking impressions, lower lab fees and better fitting dentures and crowns.

**\$10,000**

PATIENT CARE
