

ORTHODONTICS DEPARTMENT

1.

INTRA/ORAL SCANNERS

The Department is in need of a couple different scanners. We currently have only one scanner from Carestream (CS3600) and we'd like another. It would also be desirable to have an Itero Scanner (for Invisalign Cases) as well as another scanner from 3Shape.

\$25,000 (3 Needed)

2.

MODEL SCANNER

Various scanners exist, Motion View is a great one. Also 3Shape from Great Lake Orthodontic would be an excellent choice.

\$10,000
