University of Rochester Medical Center
Eastman Institute for Oral Health

Combined Doctor of Medicine-Oral Maxillofacial
Surgery Training Program

The University of Rochester School Of Medicine and Dentistry and the University Of Rochester Medical Center's Eastman Institute for Oral Health have a six-year program that awards the MD degree and advanced training in Oral Maxillofacial Surgery (OMFS).

Accepted dentists are enrolled in the MD program half-time in each of the first two years and enrolled in the OMFS program the other half of the time. Breaks during the MD curriculum allow the individual to have dedicated time in the OMFS program.

The MD-OMFS learner must remain in good academic and performance standing in both programs to remain enrolled in this combined program and their performance will be reviewed annually by both programs. The MD-OMFS learner must complete the requirements of both the MD program and the OMFS program to be awarded the MD degree and OMFS certification.

Applicant requirements:

Applications will be considered from graduates or senior dental students of dental schools accredited by the Council on Dental Education of the American Dental Association. Applicants must be U.S. citizens or permanent residents and be eligible for dental licensure in New York State and the U.S. to be considered for the 72-month MD-OMFS program. An interviewed applicant must have USMLE Step 1 scores by July 31st, of the year they plan to matriculate into the program.

Application process:

Applicants must participate in the National Matching Program of the American Association of Oral and Maxillofacial Surgeons and the Postdoctoral Application Support Service (PASS) of the American Association of Dental Schools and the in the MATCH selection process. Contact: PASS, 1625 Massachusetts Ave. NW, Suite 101, Washington D.C. 20036. Applicants assume full responsibility for submitting the required materials to PASS before October 15th in the year prior to matriculation.

Interview Invitation:

Promising candidates will be invited to Rochester for an interview in the beginning of November. The personal (virtual) interview is required for final consideration. *If accepted into the OMFS-MD Program, you must complete the American Medical College System (AMCAS) application as well as the URSMD secondary application.* The AMCAS Deadline is February 3rd, 2023 and the URSMD secondary application deadline is February 24th, 2023.

Interview Day:

Applicant will meet with the Oral and maxillofacial surgery faculty, who will answer the applicant's questions about the program. Applicants will also be evaluated by the current OMFS residents. The evaluation by the OMFS faculty and residents is objective and subjective encompassing many factors such as academic achievements, motivation for a career in oral and maxillofacial surgery, suitability specifically for the URMC oral and maxillofacial surgery residency program, professional demeanor, and future career goals.

Applicants will also be scheduled to meet (virtually) with select members of the medical school Admissions Committee. Medical school admissions will focus on suitability for a career in medicine through a holistic lens. Evidence of activities as related to the core values of the School of Medicine will

be assessed – please see the URSMD website for more information <https://www.urmc.rochester.edu/education/md/admissions.aspx> once selected for an interview, applicants will receive further detailed information about the interview process.

Acceptance:

OMFS match results are released on January 22, 2023. Once an applicant matches a *conditional* acceptance to the School of Medicine will be offered. In order to matriculate to the School of Medicine, the conditionally accepted student must take and **pass** the USMLE Step 1. The last date an applicant can take the USMLE Step 1 is July 3rd, 2023. The conditional acceptance to the MD program is contingent upon passing USMLE Step 1 on the first attempt.

Accepted OMFS-MD students must abide by all the deadlines of the School of Medicine in addition to the OMFS Residency Program. The following are examples of deadlines for the School of Medicine and Dentistry:

- AMCAS application deadline: February 3rd, 2023
- Transcript deadline February 17th, 2023
- Secondary Application February 24th, 2023
- Commit to Enroll through AMCAS – April 30th, 2023
- Orientation Material – deadline July 15th, 2023 (opens- Mid June 2023)
- Registration –July 31st – August 4th, 2023
- Full attendance at orientation in August 2023

Specifics of program participation are outlined below.

Phase 1

	AUG	SEPT	OCT	NOV	DEC	JAN	FEB	MAR	APR	MAY	JUN
Orientation	Human Structure and Function			Medical Evidence and Inquiry	Vacation	Molecules to Cells		Pharmacology	Host Defense		Assessment
	Introduction to Clinical Medicine					Foundations of Biopsychosocial Practice			Foundations of Biopsychosocial Practice		
	<i>Meliora in Medicine</i>					<i>Meliora in Medicine</i>			<i>Meliora in Medicine</i>		

Year 1 MD-OMFS Program

The MD-OMFS student will be enrolled in Introduction to Clinical Medicine, Foundations of Biopsychosocial Practice and Meliora in Medicine and Complete the Phase 1 Assessment.

During this time, the MD-OMFS student will be enrolled 25% in the MD program and 75% in the OMFS residency as a PGY-1.

From July 1st to mid-August, the MD-OMFS student will be a full time OMFS resident (6 weeks).

From matriculation to the beginning of Phase 2, it is expected the MD-OMFS student will complete the equivalent of 30 weeks of the OMFS residency (24 week equivalents during Phase 1 of the MD program and 6 following Phase 1).

Phase 2

AUG	SEPT	OCT	NOV	DEC	JAN	FEB	MAR	APR	MAY	
Mind Brain Behavior		DPT: Cardiopulmonary, Renal		DPT	Vacation	Disease Processes and Therapeutics		Assessment	Transition to Licensure
