Director of PG1 Pharmacy Residency

Kelly Pillinger, PharmD, BCPS-AQ ID, BCIDP

Infectious Diseases Clinical Pharmacy Specialist
PGY2 Infectious Diseases Residency Program Director

Carissa Treptow, PharmD, BCOP

Malignant Hematology Clinical Pharmacy Specialist

Clinician burnout has serious consequences not only for individual healthcare workers but also for the quality of patient care that is delivered. The National Academy of Medicine recognizes that burnout is primarily driven by external factors rather than internal factors that can be controlled by an individual clinician. Developing a departmental well-being program and implementing well-being interventions create the structure for focused interventions and systems improvements to reduce the risk of burnout as well as monitor and measure employee burnout over time.

At the conclusion of the seminar, the participant will be able to:

1. Review prevalence and drivers of burnout among healthcare workers.
2. Explain the importance of measuring and monitoring healthcare worker burnout.
3. Describe the organizational structure of a well-being and resilience program and interventions to promote healthcare worker well-being on a departmental or unit level.

Open to all faculty, staff, and students

The Medical Faculty and Clinician Wellness Series is a qualifying activity for the 2022 URM Malpractice Premium Differential Program. ACCREDITATION The University of Rochester School of Medicine and Dentistry is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
