The presentation will provide an overview of the benefits and challenges of performing clinical event debriefings. With the recent challenges of the COVID-19 pandemic, connecting, sharing, learning, and supporting each other is more critical than ever. CED can be a great tool for meeting these needs and ultimately improving patient care and outcomes.

Learning Objectives:

1. List the 5W's of clinical event debriefing
2. Describe the benefits and challenges of clinical event debriefing
3. Describe how performing clinical event debriefing can support patient safety and outcomes

Open to all UR Faculty, Staff and Students
