A postdoctoral position in virology is available to conduct research in the laboratory of Dr. Luis Martinez-Sobrido in the Department of Microbiology and Immunology.

Dr. Luis Martinez-Sobrido’s research interest focuses on the molecular biology and in the evasion of the innate immune response by negative strand RNA viruses, mainly Arenaviruses and Influenza viruses.

The postdoctoral fellow will work with a vibrant and international group of virologists in direct interaction/collaboration with other virologists and immunologists.

Ideal candidates should have training in molecular biology, immunology and virology. The qualified candidate should also have strong communication and collaborative skills.

The position is available for 12 months initially with the possibility of renewal for one or more years, depending on the performance.

Interested applicants, send your CV, a statement of research interest, and contact information of three references to Luis Martinez-Sobrido (luis_martinez@urmc.rochester.edu) indicating postdoctoral position in the subject line of the email.
