

POST-DOCTORAL POSITION
LAB OF MICHAEL BULGER, Ph.D.

Associate Professor, Department of Pediatrics
School of Medicine and Dentistry

A Post-Doctoral Position is open in the Bulger Lab at the University of Rochester Medical Center in Rochester, NY. Applicants should hold a PhD or MD/PhD degree(s) and have expertise in molecular, cellular and/or developmental biology to study an ongoing, NIH-funded project, which involves the role of apoptotic mechanisms in late-stage erythropoiesis. Experience in computational biology is welcome but not required.

Interested individuals should submit:

- 1) a complete curriculum vitae,
- 2) the names and email addresses of references (applicants should state their relationship to each),
- 3) a description of RNA research experience, including experimental approaches and technologies with which the applicant has experience.

The successful applicant will join an interactive lab and a community of multiple groups with research interests in hematopoiesis, epigenetics and gene regulation.

Please submit applications to: Amanda Augustin
